COMET and Maldol

Base Antennas

CHA-250B VSWR graph

"One person can effortlessly raise the antenna at night when no one can spot it, and take it down before daybreak. This antenna is also a great choice for portable operations, such as quick and easy mini-DXpedition to a campground or a nice tropical island! In short, the Comet CHA-250B is simple to assemble, painless to elevate and is easy on the eyes, while at the same time getting you on 6 meters thru 80 meters without the requirement of an antenna tuner and ground radials. You'll even be able to work some DX while you're at it!" – Dan Dankert N6PEQ

COMET NEW CHA-250B BROADBAND HF/6M GROUND-PLANE ANTENNA
A newly designed broadband vertical with NO GROUND RADIALS. EXTREMELY easy to assemble, requires no tuning or adjustments and VSWRs under 1.5:1 from 3.5-57MHz! • TX: 3.5MHz – 57MHz • RX: 2.0 – 90MHz • VSWR is 1.5:1 or less, continuous • Max Power: 250W SSB/125W FM• Impedance: 50 Ohm • Length: 23' 5" • Weight: 7 lbs. 1 oz. • Conn: SO-239 • Mast Req'd: 1" – 2" dia. • Max wind speed: 67MPH

COMET GP-15 TRI-BAND 52/146/446MHZ BASE REPEATER ANTENNA Gain & Wave: 52MHz 3.0dBi 5/8 wave • 146MHz 6.2dBi 5/8 wave x 2 • 446MHz 8.6dBi 5/8 wave x 4 • Max Pwr: 150W • Length: 7'11" • Weight: 3lbs. 1oz. • Conn: Gold-plated SO-239• 2MHz band-width after tuning (6M) • Construction: Single-piece fiberglass

COMET CX-333 TRI-BAND 146/220/446MHZ BASE REPEATER ANTENNA Gain & Wave: 146MHz 6.5dBi 5/8 wave x 2 • 220MHz 7.8dBi 5/8 wave x 3• 446MHz 9.0dBi 5/8 wave x 5 • Max Pwr: 120W • Length: 10'2" • Weight: 3lbs. 1oz.• Conn: Gold-plated SO-239 • Construction: Fiberglass, 2 Sections

COMET GP-3 DUAL-BAND 146/446MHZ BASE REPEATER ANTENNA Gain & Wave: 146MHz 4.5dBi 6/8 wave • 446MHz 7.2dBi 5/8 wave x 3 • Max Pwr: 200W • Length: 5'11"• Weight: 2lbs. 9ozs. • Conn: Gold-plated SO-239 • Construction: Single-piece fiberglass

COMET GP-6 DUAL-BAND 146/446MHZ BASE REPEATER ANTENNA Gain & Wave: 146MHz 6.5dBi 5/8 wave x 2 • 446MHz 9.0dBi 5/8 wave x 5 • Max Pwr: 200W • Length: 10'2"• Weight: 3lbs. 8ozs. • Conn: Gold-plated SO-239 • Construction: Fiberglass, 2 Sections

Maldol HVU-8 ULTRA-COMPACT 8 BAND HF/VHF/UHF VERTICAL ANTENNA
80/40/20/15/10/6/2M/70cm Only 1/2 the traditional size and weight of vertical HF antennas, and it includes 2M/70cm! Unique radial system rotates for balcony installations, the radials can all be rotated to one side. • HF and 6M: 1/4 wave-length • Gain 2M: 1/2 wave-length, 2.15dBi • Gain 70cm: Two 5/8waves in phase, 5.5dBi • Impedance: 50 Ohm • Max Power: HF 200W SSB • 6M–70cm: 150W FM• Conn: SO-239 • Height: Only 8'6" • Weight: 5lbs. 7ozs.

COMET GP-9 / GP-9N DUAL-BAND 146/446MHZ BASE REPEATER ANTENNA
BEST SELLER!• Gain & Wave: 146MHz 8.5dBi 5/8 wave x 3 • 446MHz 11.9dBi 5/8 wave x 8 • Max Pwr: 200W• Length: 16' 9"" • Weight: 5lbs. 11ozs. • Conn: GP-9 Gold-plated SO-239 • GP-9N Gold-plated N-type female • Construction: Fiberglass, 3 Sections

COMET NEW H-422 QUAD-BAND HF DIPOLE Compact 40/20/15/10M "V" or Horizontal Dipole • Max power: 1kW SSB • Length "V" Dipole: 24' 3" • Horizontal Dipole: 33' 10" • Shipping length: 79" • Weight: 11 lbs 14 ozs • Wind Load: 3.02 sq feet • Required mast size: 1.5" - 2.5" diameter • CBL-2000 2kW Balun included • Simple installation, band tuning and profile change

Charlotte Hamfest

March 8 & 9, 2008

Charlotte Merchandise Mart

Largest Indoor Hamfest in the Carolinas

- Over 120 commercial exhibit booths
- Major manufacturers represented
- 8 foot swapfest tables (pre-registration only)
- 120,000 sq. ft. of indoor exhibit space
- Convenient parking for 3,500 cars
- ARRL Sanctioned Hamfest
- Walk-in VEC Testing Saturday by WCARS-VEC
- Great Forums both days
- Ladies Activities
- Fabulous prizes

FOR PRE-REGISTRATION AND SWAPFEST TABLES, CONTACT:
CHARLOTTE HAMFEST
16007 Winfield Creek Pkwy
HUNTERSVILLE, NC 28078
(704) 948-7373

Check out our web page for the latest info:

www.w4bfb.org

DEALERS! Take advantage of our early bird discounts!!!!

March 8 & 9, 2008
Charlotte Merchandise Mart
2500 E. Independence Blvd.
Charlotte, NC
Freedom & Independence Halls

FOR DEALER INFORMATION, CONTACT:
Tom Hunt, KA3VVJ
704-948-7373

NEW PARKING PROCEDURE THIS YEAR

The Merchandise Mart Charges $6 a day to park.
But, we will have $4 ONE DAY EACH pre-registration parking passes available.
You must specify how many one day passes you desire.
The Charlotte Hamfest gets NO money from parking fees

Rankin County, Mississippi is Emergency Prepared

Wm. Robert Sekul, N5XXX
110 Shenandoah Estates Circle
Brandon, MS 39047-7777
Special to the SERA Repeater Journal

The Rankin County Emergency Operations Center, K5RKN, located in Rankin County, MS, is taking the next step in Amateur Radio with D-STAR Technology. D-STAR (Digital Smart Technologies for Amateur Radio) is a digital voice and data protocol specification developed for use in amateur radio. D-STAR compatible radios are available on VHF and UHF amateur radio bands. In addition to the over-the-air protocol, D-STAR also provides specifications for network connectivity, enabling D-STAR radios to be connected to the Internet or other networks. D-STAR is the result of research by the Japan Amateur Radio League to investigate digital technologies for amateur radio.

"D-STAR has no boundaries, and is the future of Amateur Radio" said Richard Wilson, KD5RWF, Rankin County, MS Emergency Management Director. What makes digital technology and D-STAR so important to HAM radio? The one comment I hear the most is that D-STAR has cell phone like quality. It's able to reach further without losing quality. Another advantage that D-STAR has is the ability to link together and it's also capable of using the Internet as a linking media as a gateway. One of the big reasons behind this is that in order to send the signal great distances you have to throw the signal miles into the air, Wilson said.

Rankin County Emergency Operations, K5RKN, has a full complement D-STAR system installed on a 500 foot tower north of Brandon, Mississippi. Presently we have the two meter (145.170) and 70 cm (444.825) repeaters operational and are waiting on hard-line for the 23 cm systems and a static IP from the internet service provider to turn on the gateway. The 70 cm repeater is transmitter combined with an analog repeater (444.900), duplexer, and a receiver multi-coupler to share the same antenna. The 2m repeater and an analog repeater (147.345), also at the same

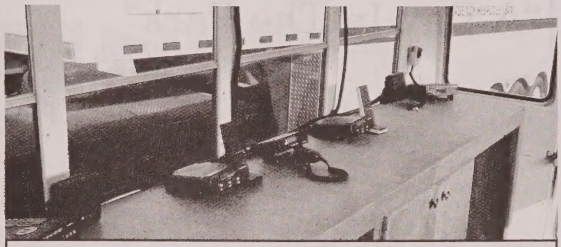
Ham Station at Rankin County EOC, equipped with 2meter, 440, HF, and APRS.



Rankin Co. Emergency Communications Bus Communications Gear

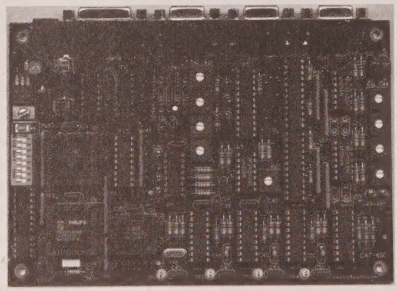
site have their own respective duplexers and antennas. We also have a WIFI point to point backhaul at this site linking the Rankin County EOC for redundant internet service if needed.

The Rankin County Emergency Operations Center radio room is equipped with an ICOM ID-800H for D-STAR communications along with an analog two meter/70 centimeter station and an HF/6 meter station. The EOC also has an APRS station and will soon have a DPRS station interfacing with weather and D-STAR. D-STAR communications from the EOC will be via voice, high speed data and low speed D-Chat which will allow text messaging simultaneous with voice. The proximity of the Amateur Radio equipment and operator with other vital emergency services in the same operating area allows for simultaneous sharing of information between the services without interruption.

Rankin County EOC also has an emergency communications command center bus which houses various county and state communications systems along with Amateur Radio D-STAR ID-800H, 2m analog, and 70 cm stations. This rolling command center can be deployed at a moment's notice. The equipment housed in the command center includes three portable D-STAR ID-800H units configured in a portable arrangement to allow for fast deployment in time of need.

CAT-400 Repeater Controller

This controller combines the features of the popular CAT-250 controller and the RLS-1000 Remote Link Switch into a four- port controller ideally suited for sophisticated linking systems.



Features Include:

- Voice Synthesizer ID
- (20) Voice Messages
- (1) Repeater Port
- (3) Remote Base Ports
- (4) DTMF Decoders
- CW Identifier
- DTMF Audio Muting
- DTMF Pad Test
- (40) User Macros
- (50) Event Macros
- (64) Control Functions
- (4) Logic Inputs
- (4) Output Switches
- Internet Firmware Upgrades
- Optional Windows® Editor

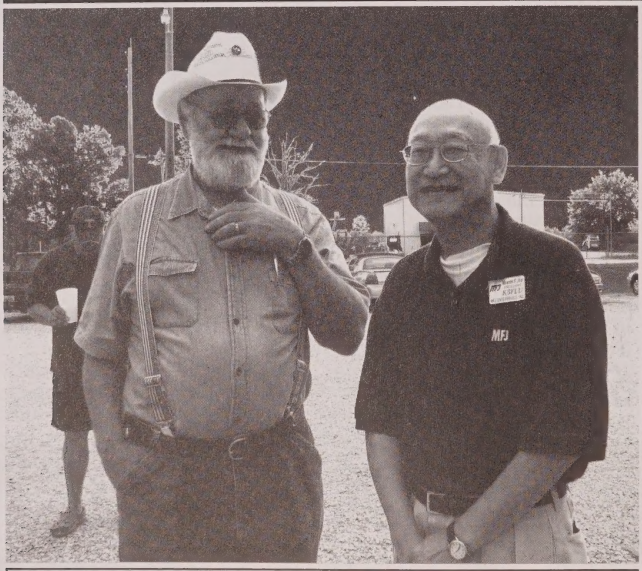
"A Day In The Park"

and other notes from Mississippi

Malcolm Keown, W5XX
64 Lake Circle Dr
Vicksburg, MS 39180
Special to the SERA Repeater Journal



Joe Taylor, W5BJT, and Martin F. Jue, K5FLU, enjoy an "eyeball" QSO during the ARRL Day in the Park hosted by MFJ Enterprises in Starkville as part of their 35th Anniversary Celebration. *Photos thanks to Sue Honeycutt, N5FQH*

MFJ hosted Mississippi's annual ARRL Day in the Park in Starkville as part of their 35th Anniversary Celebration. Chairman, KC5NSZ, reports that over 400 were in attendance for the two-day event. Participants were given the opportunity to tour all four MFJ Facilities and ask all of the questions they could think of. Special guests included K1MMH from ARRL Headquarters and K9JA from ICOM, who brought along an IC-7800 for the participants to drool over. Also in attendance were Delta Division Director, WD4Q and Vice Director, WA5TMC, who presented Martin, K5FLU, with a plaque recognizing his contributions to Ham Radio over the past 35 years.

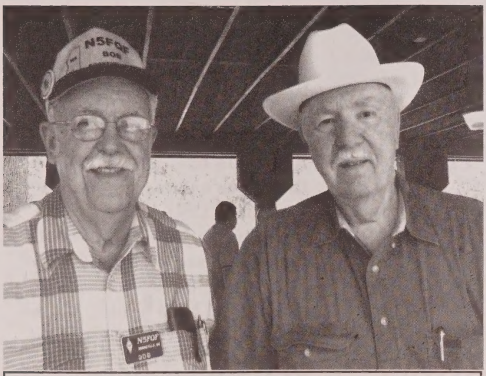
Other Notes

Lafayette County Emergency Management contacted ARES to assist the Lafayette County Fire Department and the Mississippi Forestry Commission in fighting a large wildfire in a densely wooded area in the northwestern part of the county. The assistance rendered was not however fully communications related. Due to the size and scope of the fire and other emergencies going on simultaneously, local law enforcement was not available to secure the roads leading to the fire scene. ARES members responded within minutes of the request for assistance and secured the roads leading into the area. This prevented local residents from getting too close to the scene and kept a clear path for the fire equipment to get through. Those hams participating in this effort were K5DSG, K5LMB, K5MHB, KE5PPU, W4DQK, KD5JHE, KE5JQZ, WB5VYH, and W5MPC.

McHenry D-STAR is a work in progress. Through the efforts of Harold, K5GVR, Ray, K5XXV and Tim, N5UDK, the receive antennas for the 2 meter and 440 digital voice repeaters have been split from the transmit antennas. The receive antennas are now at about 1100 feet. The 440 amplifier was found bad. The removal of it allows the signal to be heard all the way to the coastline in Gulfport. It is hoped that the addition of preamps to the 2 meter and 440 receive systems will bring them up to par. Hopefully the Internet Gateway will be activated soon.

The Mississippi Coast ARA activated K5K focusing on the second anniversary of Katrina's Landfall. W5ACS reports making over 200 contacts. QSL with SASE to W5ACS.

The DeSoto County RACES group attended the City of Olive Branch Neighborhood Watch "Safety Fair" on Saturday August 11. They displayed the DeSoto County EMA Rescue Truck (you have to see page 57!), handed out disaster preparedness materials, and demonstrated how simple and efficient amateur radio communications could be set up by



Bob Honeycutt,N5FQF and Lee Franks, N5FP

Niles Honnell, K5TFD, Bob, N5FQF, Walt Hopper, K5VV

using a G5RV, battery and a 'Go Box.' The demonstration was a hit and a bunch of potential hams asked a lot of questions.

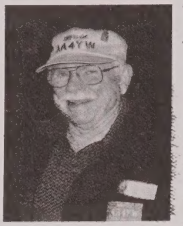
At the section level, Mississippi is better prepared for an emergency communications response than we were before Katrina. However, because Katrina wiped out the 2005 SET and there wasn't much enthusiasm for a Post Katrina Simulated Emergency Test (SET) in 2006, local level ARES exercises have been rather hit and miss since our last SET in 2004. We are recovering our enthusiasm now, and hope for better participation now and in the future.

Bob Honeycutt,N5FQF, Earl Baker, K6MG, and Bill Robinson, KB5ASR

The training value we realize from the next SET will depend on how well our emergency coordinators do their Pre-SET homework. The activity is a golden opportunity to resurrect a dormant ARES Group that has the post-Katrina blues and to get back on the radar screens of your local EMA Director, law enforcement officials, Red Cross Director, Salvation Army Corps, etc. Contact your EC and see what part you will play in the SET.

Bob Honeycutt,N5FQF and Ron Saine, KE5KRD

Thanks to the efforts of Mississippi instructors and VE teams, Mississippi has gained fifty-six news hams in one month. Instructors and VE Teams: Keep up the good work! Congratulations are in order for Griffin, KE5QEK, who passed his Tech Exam at the ripe old age of 8. Amazing!



Let's Look At It--- This Way !!!

Marvin Whatley, AA4YW

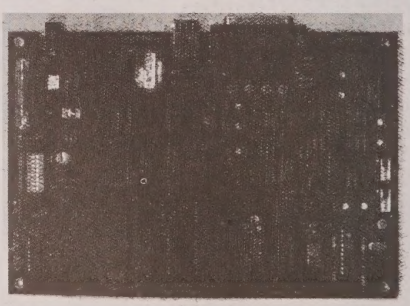
When Life was Sweeter

I was shopping in one of those big super groceries. Susan, who does our serious shopping, considers it an onerous chore, but, when I am not in a hurry, I rather enjoy it. It is a sociological adventure, realizing that people actually buy all of the strange items on these shelves. I was looking for sugar. Neither Susan nor I use much sugar but we feed the humming birds and I make up my own formula (just sugar water) that they seem to love. Sugar wasn't listed on any of the signs that tell you the items in each isle, so I had to ask and be told that the sugar always is found with the flour. When I had the store's brand in my hand I looked around to see what else they had, and there it was: "organic sugar!" "Oh no...", was my quiet response. It was duly certified, packaged in a sturdy clear plastic bag and had a faint honey color to it. As I turned it over in wonder there was a strange welling up in me and I realized that I was going to cry. I was startled and chagrined. I managed to control myself but I had to reflect on why a package of organic sugar would evoke tears.

I know a little bit about sugar. For many years from the 1930's through the 1950's there was a sugar mill on the campus of LSU. Sugar was a major agricultural product of Louisiana and perhaps Huey P. Long thought that the university should have a mill. It was a small industrial facility that processed the harvest from a parish or two and made enough raw sugar to almost break even. The mill actually belonged to the Chemical Engineering Department where the professors served as consultants and the students used it as a laboratory. We derisively referred to it as "the floor sweeping lab", but there was much useful experience to be had and an opportunity to apply many things that

CAT-300DXL Repeater Controller

The CAT-300DXL has all the features of the very popular CAT-300DX including a full feature autopatch and a Remote Base Port.



Features Include:

- *Voice Synthesizer ID*
- *(20) Voice Messages*
- *Real Time Clock*
- *(20) Position Scheduler*
- *Full Feature Autopatch*
- *(100) User Speed Dials*
- *Emergency Speed Dials*
- *Reverse Autopatch*
- *Remote Base Port*
- *CW Identifier*
- *(20) User Macros*
- *DTMF Audio Muting*
- *DTMF Pad Test*
- *(4) Logic Inputs*
- *(4) Output Switches*
- *Optional Windows® Editor*

we had learned. I calculated heat-transfer coefficients for the heat exchangers, emptied the plate-and-frame filter press, measured flow to the gravity leg condenser for the triple-effect evaporators and made a heat balance around the vacuum sugar pan where the crystals form. I tasted A-strike and B-strike sugar but took warning not to taste the C-strike sugar or molasses. I and the three other students who made up my group, stripped to the waist in the hot Louisiana sun, horsed large pieces of scrap steel around as we calibrated the scale on the several ton crane used to take the sugar cane off railroad cars. In this lab I also learned to use a hydrometer, a picnometer, a polarimeter and a big old hand-cranked Marchant calculator.

It turns out that refined sugar is essentially chemically pure sucrose, among the purist materials produced in bulk. The impurities in the sugar on the shelf are less than those in most "reagent grade" chemicals available for laboratory use. The product is so pure that it is impossible to tell whether it came from beets or cane. That there could be any residual from any agricultural procedure is truly outlandish. The little color in the "organic" sugar (apparently required to make it different) must have come from some perversion. The marketing for it must emphasize the inner aura arising from belonging to a vital cultural redemption of cosmic significance.

Following the thread, I found that several major sugar companies now offer specialty organic sugar. A modern company must respond to such an obvious, lucrative, and eager market. I also learned that they get the color (and taste?) by questionable refining. My family thinks I am obsessed with the organic business. I do prate on the fact that all serious studies show that there is no nutritional benefit and that the residual traces of pesticides in conventional foods (approved by the USDA) are well below any danger level. Some studies show that pathogens introduced by "natural" fertilizers may present a threat that makes organic foods more dangerous. The organic regime does advocate certain conservation measures, but these are not unique to the organic ethic nor does it necessarily implement them in the most effective manner. It is also realized that if only certifiable organic procedures were used for food production, and conventional agriculture abandoned, over half of the world's people would starve. Organic is a fetish for the wealthy.

I have been told that organic foods are better: they look

better, they feel better and they taste better. Maybe, but when you are going to charge twice as much for an item, you can pay a little more attention to packaging, handling, and, perhaps, harvesting, but it has nothing to do with being "organic."

I remember when the word "organic" was first applied to a way of growing things. There was a dramatic reaction to Rachel Carson's "Silent Spring" (1962) and we were all wondering if we were going to die from pesticides. Activist groups called for more natural ways for doing things and warned against "chemicals" in our food. It started with the use of "natural" fertilizers and "natural" pesticides, and then the "Organic Gardening and Farming" magazine, that had been around a while, became a popular publication. By the mid sixties the term "organic food" had come to mean food that had been produced by this means. I laughed because I had taken a course in organic chemistry in the forties and knew what "organic" meant. It was a couple of years before I had to concede that the word had been redefined it to mean something totally different. Similarly, when I commented that everything, including human bodies, was made of chemicals, there was ridicule and laughter.

All right, so precepts were changing, but not everything we knew was up for grabs. In 1777 Lavoisier working with oxygen debunked the phlogiston theory and introduced modern chemistry, and he was right. In 1803 Dalton established the atomic theory and elements have been with us ever since. Berzelius first coined the term "organic chemistry" in 1807 for the study of compounds derived from biological sources. At that time it was believed that there were compounds produced only by life, distinguishable from those that could be synthesized in the laboratory. But in 1827 Friedrich Wöhler synthesized urea, and proved this whole notion wrong. Since then the science of chemistry has expanded to where, starting with only air, water and limestone it is now possible in principle to synthesize organic compounds of astonishing variety and astounding complexity including the amino acids of which all proteinaceous material is made.

It is also established that a molecule is determined entirely by its atoms and structure, regardless of its origin or mode of production. An interesting case arises from the fact that ethanol is ethanol. The ethanol manufactured from petroleum (by far the cheapest way to make it,

even now) must not be permitted to collect the heavy government subsidy needed to make profitable the chemically identical ethanol produced from corn. To protect against this, Carbon-14 isotopic assay, developed for dating archeological artifacts, is being employed. And, for the record, when dispersed in soil, it is impossible to distinguish, even were you a tomato plant, the ammonium ion of commercial fertilizer from the ammonium ion released by rotting mule dung.

Anyway, in the late 1960's there developed a market for produce that had been grown free from perceived industrial "contaminants", so some farmers, primarily in California, began to advertise produce so grown.

They did well, and when more farmers got involved the invoked discipline and the terms used got dubious. In 1973 a group of 54 farmers collaborated and formed the CCOF, The California Certified Organic Farmers, and took it upon themselves to codify what they meant by organic. The organization rapidly grew in numbers and in influence until in 1979 there was the California Organic Food Act that made things official. For about a decade anyone who wanted to cash in on the organic market referred back to the standards of the CCOF. But, by the late 1980's, things became a little worried again because a number of conflicting private and state-run certifying bodies were getting into the act. Finally in 1990, the federal government gave us the Organic Foods Production Act. We were entering the age of big SUVs and bigger houses and the organic market was booming.

It took time for the feds to get things together, but since October 2002, producers and handlers must, by law, be certified by a USDA accredited certifying agent in order to call their wares "organic". There you have it. It is no longer a matter of nutrition or health, and not chemistry nor reason nor God Himself is relevant: it is a matter of law. A thing is organic if an accredited agent says so, and use of the word without this blessing (certification) could result in severe fines. The physical requirements for application for certification, available from your local extension service, are well intended but mostly border on religious ritual. There are shreds of reason remaining. The USDA has ruled that salt is a mineral and cannot be designated as organic (although I have seen "organic sea salt"). They also maintain that water is a simple substance and cannot be designated as organic. To be organic there must be some connection to agriculture. There are organic milk and organic beef. You may wear organic underwear made of organic cotton, and there is also organic wool, but there will never be organic polyester (strange, because chemists consider polyester an organic polymer). Buildings may never be made of organic steel nor organic concrete, but, since forests, like sugar cane fields, are seldom treated with pesticides and less often fertilized, you may one day build your house of organic lumber.

So the public will have what it wants and, while "organic" may not be as wholesome as daily exercise, it is probably no worse than global addiction to cell phones. Which is a different issue.

Get The Hammer!

... and let's get technical

Randy McKenzie, KK4EJ

Hello again friends, I hope you all have had a great summer and are ready for a vivid fall. I look forward to the changing of the seasons and cooler weather, the changing of the leaves, the colors and the upcoming white flakes of joy!

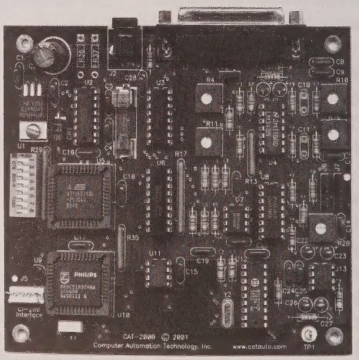
Cooler weather means I'll once again be inside more, playing with the kids, fighting over the TV remote, finding those lost items on the workbench, and finally getting to some of my "someday" projects. Do you have a list of "someday" projects? I bet we all have a few!

One of my electronic projects has been a H bridge, the design of which was a self taught lesson in MOSFETS, but construction of that bridge has been on hold for a couple of years.....until now. Why the change? Why now? Simple, I finally found a circuit for a current monitor and the last part I needed was an over current shutdown. I discovered a neat little chip called a current monitor (ZXCT1009 to be exact). Without going into circuit details; this chip simply monitors the voltage across a .1 ohm resistor and converts it into a voltage than can be scaled by an external resistor and used in a comparator to control or signal another circuit. While this chip has been out for several years and this isn't a brand new NASA invention, it is new to me. I get excited when I have that forehead slap moment of "that's what I've been looking for!" Honestly it's finding new ideas like this that keeps me interested in electronics. I tend to get bored with the same old stuff. I have very little patience with the phrase "we have always done it this way."

The discovery of new things feeds my engineering side, the

CAT-200 Repeater Controller

This controller was specially developed to provide remote base linking operation and a voice synthesizer at an extremely affordable price.



Features Include:

- *Voice Synthesizer ID*
- *(12) Voice Messages*
- *CW Identifier*
- *Beacon Message*
- *Remote Base Port*
- *DTMF Audio Muting*
- *DTMF Pad Test*
- *(30) Control Functions*
- *(4) Logic Inputs*
- *(4) Output Switches*
- *Optional Peet Weather Station Interface **
- *Optional Windows ® Editor Program **

** Requires CI-200 Computer Interface*

Ordering Information

part that wants to learn, discover and experiment. Now I just need to get the construction side of me caught up with the design side. I admit to being very behind on a lot of the new things, like micro controllers, but I am slowly learning and discovering them, thanks to Microchip and online information! Those circuits, that years ago I had no clue about, are now something that I could build, or at least understand. My early years with a Radio Shack Electronics Lab were just the beginning. Discovery, exploration, and the curiosity that made me plug things into the wall and gasp at the smoke. Go ahead and admit it, you have let the magic smoke out of a component or two yourself!

The discovery of new things in HAM radio can be exciting too. Remember the first time you played on HF? Or the thrill of the first time you used voice on 2m? Or loaded packet software and it worked? How about the first non USA contact? Spent all day Saturday cutting and soldering a dipole and stringing it up? My parents reminded me the other day of a time when they returned home to find my antenna all over the yard. The pole I put in the ground is still there! Dad broke a chain trying to grub it out!

Last issue my son Zach shared his thoughts about my truck. My little girl Katie, who is age 8 (going on 18) asks questions about my radios and all my "wires and stuff " on the workbench. I try to explain in simple terms, of why, where and what. I overheard her telling Zach that "Daddy uses wires of all colors and burns his finger with the hot thing (soldering iron)....." I'm just glad she didn't hear the bad word I said after I burned the SAME finger the third time. Go ahead and laugh, but I know you have done that too!

Discovery and learning, the thrill of exploration, and the agony of blowing the most expensive part. How the mind can scream "stop it's hooked up wrong" at the same instant the hand is turning the power on.

Think back to the days when the transistor was not here. A glass tube held our future. Now we have semiconductors that can do nearly anything and cost pennies. Imagine the next generation of electronics, beyond a computer, but in non-microprocessor based items. What? Something that doesn't have a computer brain inside? That thrill of discovery for us all, that little kid reborn inside us all, coming soon to a gadget near you!

I can only imagine the things that we will have when I'm a Grandpa! My Grandkids will come by the house, I'll be at the workbench looking for parts, and they will ask me why I use so many colored wires and keep burning my fingers.....

Someday is here. Drag out that old project, dust off the imagination and get in touch with that inner child. Just remember that I was the one who whispered in your head that you can work on it all night but it might work better if you turn it on.

As my mentor, Red Green, says "I'm pulling for you; we are all in this together." You know that anyone who uses that much duct tape is a true genius!

'Till next time, God Bless!!!

Kentucky

Pat Spencer, KD4PWL

As Thanksgiving nears, we hold out hope for winter rains to break the drought Kentucky has seen.

Each year, the ARRL Great Lakes Division recognizes amateur radio achievement and excellence by operators in the Michigan, Kentucky, and Ohio sections. This year, their September 22 convention in Cleveland, Ohio recognized Kentucky SERA members Fred Jones, WA4SWF, and Tom Mansfield, KG4TND, for their efforts.

Jones, of Louisa, Kentucky was presented with the "George S. Wilson III, W4OYI, Lifetime Achievement Award." This award recognizes meritorious service by an operator that has been licensed for 30 years and whose all around attitude, achievements and activities serve as an example for others. Recipients are nominated by their peers and evaluated by an award committee. Over several decades, Jones has been instrumental in the clubs, organizations, emergency service and repeater efforts in Eastern Kentucky. He is also the former Kentucky Columnist for the Repeater Journal.

Commenting on the award, Jones said, "George Wilson, W4OYI, sent me a very nice message and it was a really big thrill seeing that from him. I cannot thank John Meyers, NB4K, enough for all he has done for me. Making me one of his Assistant Section Managers was something that had never been done before and I thank him for that." He also thanks "Jeanie Dalton, KB8QLC, for accepting the award for me was just great."

He continued, "Jim Weaver and Gary Johnston were just great in backing me in whatever I got into and would help to guide me some. All of the amateur radio operators that I know (and many I don't) have supported me over the years and put up with my many ideas about operating during emergencies, I think Ron Dotson, KA4MAP, kept on me the most and pushed me into really getting things done. I like everyone on the SSB and CW Nets and hope we can keep them all running. The ARRL is a great organization headed by some people that really want to make sure that amateur will not die, I pray that the League keeps things going as they have in the past, making amateur radio a better place to operate and be proud of being a 'Ham Operator' I know that I am."

Mansfield received the "Great Lake Division Directors Outstanding Achievement Award" because of his dedicated outstanding service to amateur radio public service and managing amateur radio public service programs and events. Licensed in 2002, Mansfield immediately gravitated to ARES and public service. Taking the reigns as Fayette County ARES Coordinator in 2004, he was instrumental in working the University Of Kentucky Medical Center to support and place an amateur radio repeater at their facility for use during emergencies. The 147.120+ K4UKH repeater serves several counties in Central Kentucky. Mansfield coordinates amateur radio communications at 11 public service events in Lexington, Kentucky.

"I was surprised and pleased to receive the recognition," said Mansfield. "But my role as coordinator is also only a reflection of the dedication of all the ARES members I am on the team with. Without their hard work, our group would not have the success it has enjoyed."

The next generation of amateur radio was spotlighted this summer. A young lady in Clark County is billed as being the Commonwealth's youngest amateur radio operator. According to the Winchester Sun, Megan Cady, KI4WXJ, received her license in July at age 7. She is the daughter of Gary Cady, KD4GDT, and Teresa Cady, KF4ZIM. For the complete story, go to www.winchestersun.com and search the archives for "Cady."

Another bright spot in sharing the future of amateur radio with the next generation comes from Northern Kentucky. Dixie Heights High School's science teacher Jim Hicks, WB4CTX, is teaching what may be the only high school credit awarding amateur radio class in the nation. The course covers the technical, procedural and operational courtesy aspects of amateur radio in its seventy minute sessions, five days a week.

The class has the backing of amateur radio organizations. Both the Kentucky District

7 Amateur Radio Emergency Team, KD7ARET, and the Northern Kentucky Amateur Radio Club, NKARC, are supporting the effort by paying the VE testing fees for low-income students. All students passing the course and receiving their license are given free membership in the NKARC. NKARC is also donating a new 2M HT to the student earning the highest score in the class. VE testing is scheduled for November, so look forward to new repeater users on the air in Northern Kentucky.

My apologies for the short column in this issue. Like rainfall in Kentucky, repeater coordination news and information is very sparse. I would like to expand repeater coverage in the future, and I need your help. If you would like to have your repeater spotlighted in this column, please contact me at kd4pwl@sera.org.

For information about amateur radio in Kentucky, please visit the KYHAM web site at www.kyham.net.

Virginia

Fred Weaver, KG4BKI

A Special Note From The Editors

It was called to our attention recently that Fred has been writing for the *SERA Repeater Journal* for five years now. As with all our state correspondants, writers like Fred are the backbone of this publication. We thank Fred, as he reaches this milestone, for the untold hours of work he has devoted to the *R-J* and to the SouthEastern Repeater Association. We hope that he continues for many years to come.

Jamestown 2007 is a series of events celebrating the 400th anniversary of the founding of Jamestown, Virginia; the first permanent English settlement in what is now the United States. The activities have been ongoing since 2006 and began with the sailing of the Godspeed replica ship to major USA ports along the east coast. The replica was on hand during May 2007 to participate in the various activities surrounding the Official Anniversary Weekend which was May 11 – 13, 2007.

Her Royal Highness Queen Elizabeth II and the Duke of Edinburgh visited the Jamestown Festival Park during the Official weekend. This was the Queen's second visit to Jamestown as she was there during the 350th Anniversary Celebration. Go to <www.jamestown2007.org> to read some of the letters from people who remembered the 350th event and the Queen's visit.

Amateurs in the United States and England have been (and continue to be) involved in a series of special event stations that are part of the celebration called "America's 400th Anniversary".

Honoring the First Landing, a special event station using the call W4UG was operated by the Virginia Beach Amateur Radio Club at First Landing Park on April 26th through 29th. The station operated in cooperation with the Jamestown 2007 Committee during the reenactments of the First Landing at Cape Henry. For the event a Chesapeake Indian Village was constructed. The club operated at the park on the 26th and 27th and from home stations on the 28th and 29th.

GB400AA special station was created by Hams from several clubs on the east coast area of the UK. The operating site was the Ha'penny Pier in Harwich. The station was in operation from May 11th to the 13th. There are pictures and other info at <www.gb400aa.org>. (I was just able to hear GB400AA a little bit, but could not work them.)

K4J was listed as an "Official Statewide Partner" station and operated from a location at Jamestown Anniversary Park, near the visitor's center. It was sponsored and operated by the Dominion DX Group. Check them out at <www.ddxg.net>. They are officially reporting 1607 contacts which is a nice round number for the event. (KG4BKI is in their log.)

W4J was sponsored by the Williamsburg Area Amateur Radio Club (WAARC) and operated from Jamestown Island on May 12. Along with the special challenges of coordinating the event relative to the security requirements for the visits of Queen Elizabeth II, President Bush and VP Cheney; there were important archeological considerations. No tent pegs and no ground rod were allowed. See a full report by K2QIJ at <www.aresva.org>. (KG4BKI is in that log too.)

The W4J call will be used in July in Williamsburg and in the fall from Yorktown. There will be a special certificate for working all three events.

K4V was a planned mobile operation that Kyle WA4PGM sadly reported had to be cancelled.

W4V was used by the Central Virginia Contest Club from March 10 – 25 and May 12 – 27. They have a commemorative QSL card for stations working club members during the two periods. Their web site is <www.c-v-c-c.us>. (I heard a W4V station working K4J just before me, but could not get to him.)

N4V was used by J.V. Staples KT4U during the Virginia QSO Party May 17 – 19. Look him up on QRZ.com for qsl info.

The Virginia Quadricentennial Commemorative Amateur

Radio Award is sponsored by the Vic Clark Chapter 91 of the QCWA (Quarter Century Wireless Association). This is an award for amateur stations anywhere to participate in America's 400th Anniversary. To earn the award a station must contact 25 stations in Virginia in 2007. Details are at <http://homepage.mac.com/rrucker/chapter91/>.

Students at Kingston Elementary School were treated to a contact with the International Space Station (ISS). The elaborate and redundant station was provided through the efforts of Ed, KN4KL, Butch, KE4AZL, and Don ,WQ1E. The event was reported the newsletters of both the Virginia Beach Amateur Radio club and the Virginia DX Century Club. Kudos to all involved for a great job and a wonderful experience for the kids.

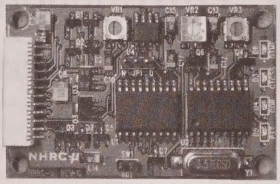
NHRC

Repeater Controllers

NHRC-μ (Micro)

Ultra-Compact
Repeater Controller/IDer



(actual size 1.25" x 2.00")

NHRC-μ Features

- Repeater Controller, IDer, or Beacon modes
- High and low-going COR and CTCSS inputs
- Extremely compact
- "Intelligent" ID algorithm
- Programmable CW ID speed and pitch
- 21 Control operator settings
- 4 User commands
- 5 Saved setups
- Touch-Tone remote control and programming
- Windows™ based, serial port programming
- Hang timer, ID timer, Timeout timer, and CW messages stored in non-volatile memory
- Jumper-selectable receiver deemphasis
- LED CAS, CTCSS, PTT, and DTMF indicators
- Extremely low power consumption

The NHRC-μ ("Micro") is a compact repeater controller/IDer designed for easy installation in close quarters. The NHRC-μ can function as a conventional repeater controller, as an IDer for repeaters, or as a beacon controller. It can be easily mounted with double-sided foam adhesive tape, and connected to the equipment with flying leads, allowing for easy installation in almost any equipment.

The NHRC-μ is programmable by sending DTMF sequences over the air, or by computer with a serial port connection and the free NHRC-μ programming software. The CW ID, hang time, ID timer, timeout timer and courtesy tone beeps can all be programmed by the user. All programming is stored in non-volatile EEPROM memory.

The NHRC-μ (Micro) (Assembled and Tested): **$119** plus shipping and handling

Bob Gault, KD4NEC

The ARRL's Delta Division Director, Henry R. Leggette WD4Q, was inducted into Mississippi Valley State University's "Hall of Fame" this summer for his lifetime achievements. He is a 1967 graduate of the university with many professional and amateur radio accomplishments to his credit. After earning a Bachelor of Science degree in Automobile Mechanics, he became the first MVSC graduate to receive an amateur radio license from the Federal Commission. He has completed undergraduate courses in Electrical Engineering at Memphis State University and in 1987 was awarded a Master of Science Degree in Electrical Engineering from MSU. He served in the US Army Signal Corps as a radio repairman and has Top Secret Clearance to repair radios and cryptographic electronic equipment.

Among his accomplishments in amateur radio include life membership in the ARRL; where he was the first black elected official when he was elected Vice Director of the Delta Division in 1989. He serves as a Volunteer Examiner and Amateur Radio License Instructor, and was the first black in Memphis and Shelby County to complete all requirements for the Extra class license. He has received numerous awards from ARRL including the Worked All States, Five Bands Worked All States Award and the DX Century Club. Congratulations to Mr. Leggette for this honor from his alma mater.

Congratulations also to Corey Smith of Rising Fawn Georgia. He traveled to Cleveland, Tennessee in September to participate in an ARRL testing session at the Cleveland Amateur Radio Club. He walked into the exam session without an amateur license and left about two hours later having completed all three. Smith, who now has the call sign AJ4CD after being issued KI4ZLS, achieved what few have accomplished. He first passed the Technician exam, took the General test and passed it, so he elected to try the Extra exam which he also passed. ARRL team leader Jack McCarty, WA5CHJ, said this is only the second time he has witnessed that accomplishment. He said it would be difficult to take all three tests in a single session and to pass all three.

In the same testing session, 10 year-old Codey Clayton acquired his first amateur license. He was issued the call KI4ZLR and has been getting on two meters with the new handheld he received as a reward. He is believed to be the youngest amateur residing in Bradley County. Codey was among students in a Technician class that was taught by Ron Akers, W8BF, on successive weekends in August and September. He and one other student in the class have acquired

WE'RE STILL LOOKING FOR A FEW GOOD VE TEAMS!

their Technician tickets before completing the class. As this issue went to press, Akers had started another Technician class and was tutoring amateurs wishing to upgrade to General or Extra. The Cleveland Daily Banner included an article on the accomplishments of Smith and Clayton in a weekend edition, inviting other potential students to join Aker's Saturday classes.

Another young amateur is Griffin Butler, who took his Technician exam at the Huntsville hamfest in Alabama. Now on the air as KE5QEK, the eight-year-old was a student in the Tech class at Germantown (Tennessee) Baptist Church. He left the hamfest with his new ticket, a dual band handheld radio and a mag mount antenna, the latter two the result of prize drawings at the hamfest. ARRL President Joel Harrison, W5ZN, offered Griffin his personal congratulations.

While on the subject of young hams I have to mention Emily Bishop, WE4MB, who you may have seen at one of the Hamfests around the southeast. She has been working hard to stir up interest in amateur radio among those of her own age. Her first presentation was earlier this year at the Knoxville hamfest and she's been to Dayton, Ohio; Huntsville, Alabama and others. Emily is an Extra class amateur who serves as the ARRL Tennessee Assistant Section Manager for Youth.

SERA Coordinator Alan McClain, KA4BNI, has been busy. He tells me he has re-coordinated 1 six-meter repeater, 7 two-meter repeaters, and 5 440 machines.

New coordinations are:
KF4TNP 145.450 Lynchburg
K4AJM 146.775 Tellico Plains
KG4NPF 146.715 Livingston
N4GMT 224.120 Arlington
KM4H 443.050 Greenback
N4ZKR 444.700 Palmer
KE4NOY 442.825 Murfreesboro
KF4TNP 444.075 Manchester
KI4GIU 442.750 Mason

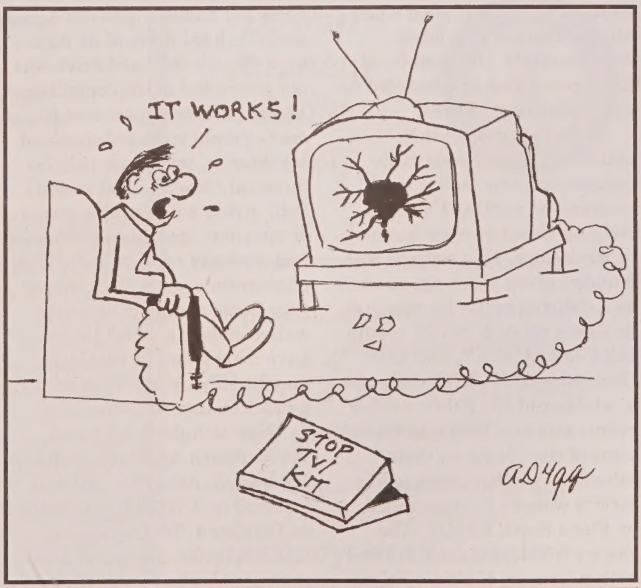
Field Day 2007 has passed, so it's time now to begin planning for June 2008. The Smoky Mountain Amateur Radio Club recently appointed Bob Wilson, KK4XA, to head up the project next year. He's been busy contacting other club members for ideas on ways to make it a successful exercise.

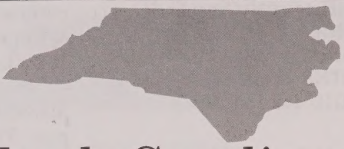
The Bristol Amateur Radio Club has started posting their /QRM/ newsletter on-line. Bert Poveda, KA4GMC, played a major role in working out the technicalities for the on-line version to appear on the club's web site. This will let those who don't receive a copy through the mail and the general public keep up on all of the club's activities.

BARC offers license examinations on the last Thursday of odd numbered months. The sessions are held in the Poplar / Azalea Room of Bristol Regional Medical Center and begin at 7 p.m. The club completed an all day Technician class in August which produced 24 new amateurs. License classes and VE testing are good ways to enlist new members. So make sure they leave with a membership application.

The Anderson County ARES net has changed and will now be on Tuesday's at 7 p.m. You can check in on the 146.880 repeater. The net includes a brief time devoted to training so it will be beneficial to tune in! Jeff Yawn, K4IK, is the Emergency Coordinator for Anderson County. Yawn was the facilitator of the club's July program giving an informative presentation on HF Emergency communications.

Repeater Journal Cartoon





North Carolina

Michael J. Lewis, WA4KE

Well folks, this month's column is shot from the hip since Mother Nature decided to supply a lightning bolt to reset my computer and other electronic components to their null condition. So this column will tie in my misfortune and your preparedness, especially since September is emergency preparedness month.

First item for emergency preparedness is to go through your Go-Bag to ensure you have all your equipment in a ready to operate condition. To fill the bag up and never check it and continue to store the same old batteries year after year is not going to do you any good when Mother Nature gets feisty. As a reminder, the Simulated Emergency Test is scheduled for October so be prepared.

If you need some information on honing your radio communications skill, I would recommend visiting Carolina Helping Hams at www.hampublicservice.org. This website was founded seven years ago to serve as a clearing house for non-public safety related service events. Bill Cole, KG4CXY, and Eric Christensen, W4OTN, maintain a calendar of NC public service events and also help coordinate some of the events on their calendar. Another great public service website is maintained by Elena Scott, KS4OX. The site www.ridemaps.com started with a focus on Multiple Sclerosis bike rides, but now includes information on other public service events in the Charlotte area.

The second item for emergency preparedness is to think about a direct hit to your home. As a homeowner, you need to be ready to pack up and leave at a moment's notice. If you had to leave as you are reading this article, do you have your import papers and records, where you can retrieve them later? These papers and records should be placed in a safety deposit box, fire proof lockbox, and a computer media device. As a word of warning, the lightning which stuck my home, wiped out a portable hard drive of its data even though the hard drive was not connected to the computer. The important papers and records should include household inventories, insurance policies, financial records, legal records (will, living will, durable power of attorney, etc.), family records, and property records, including photographs. Also, if you leave your home suddenly, is your wallet in your pocket? Do you have money for the hotel you may be staying in? What about a quick change of clothes?

Now to lighten the mood, the Southern Appalachian Radio Museum in Asheville, NC was featured on UNC-TV Our State on October 4. Tommy Queen, K4BNP, spoke about and demonstrated both types of Morse code. Dave Anderson, K4SV, covered DX and ham radio.

Visit www.ncarrl.org/ares to learn more about the North Carolina Amateur Radio Emergency Services. Bernie Nobles, WA4MOK, would appreciate the extra help during emergencies. But prior to offering your assistance to ARES, make sure you sit down and take the time to take the required FEMA NATIONAL INCIDENT MANAGEMENT SYSTEM (NIMS) COURSES: IS 100, IS 200, IS 700 AND IS 800. In addition, visit www.nccrimecontrol.org and www.wakeares.org for more info.

Upcoming Events

Oct 6: RTP Diabetes Walk
Oct 6-7: National ARRL SET Weekend
Oct 14: Mayesville Hamfest
Oct 14: Charlotte CROP Walk
Oct 20: Pfafftown Swapfest
Oct 20-21: Savannah River MS Ride, McCormick, SC
Oct 20-21: Scouting Jamboree On The Air
Oct 26: Habitat Family Fun Ride, Durham
Oct 27: Habitat Halloween 100, Durham
Oct 27: ADA Walk, Charlotte
Nov 4: City of Oaks Marathon, Raleigh

Johnston Amateur Radio Society, Inc. Will sponsor their 19th annual ARRL sanctioned hamfest on Sunday November 18th, 2007 8 am to 4 pm. This hamfest will close out the hamfest season for North Carolina and it's a good time to purchase Christmas gifts.

The North Carolina State Fair is Oct 12-21 and several hams from the RARS club in Raleigh have volunteered to man the Red Cross Radios during the fair.

OBRA, Outer Banks Repeater Association, will be providing

communications for the VIP Fishing Tournament on Tuesday, October 9 from 8:30 am to 3 pm.

In order to provide the correct credit for this column, I would like to thank all the clubs who sent newsletters, emails and postings to me. Also, I would like to thank Tim Slay since I lifted some info from his monthly news release. I should be back in the column writing next quarter, so continue to send me club info and newsletters at wa4ke@sera.org.

The Winston-Salem First Fest

Saturday, January 12, 2008

7 AM – 11 AM

Summit School Parking Lot

and leave message or send email to:

firstfest@w4nc.org

Sam Kirby, WB4HAP, SK

It's with deep sadness that we report the passing of Sam Kirby, WB4HAP. Sam did a lot to support amateur radio, RACK and ham operators in this area. He operated several repeaters (including the alternate 6 meter repeater used for the RACK Sunday night net). Sam was also a past SERA Tennessee Director and was very active in the organization for a number of years.

He will certainly be missed. Our thoughts and prayers are with his family in this time of sorrow.

HI PRO REPEATERS

Hi Pro "R1" Repeater

144 MHz, 222 MHz or 440 MHz

Here is a compact **LOW COST** repeater (less controller) priced at just $699. A 35 watt VHF (2-meter) repeater with a computer controller, voice synthesizer, auto patch, auto dialers, user functions, etc. is priced at $1,179. This is not a kit, but a complete repeater with a two-year warranty. 222 and 440 MHz versions are also available!

Hi Pro "E" Repeater

144 MHz, 222 MHz or 440 MHz

The Hi Pro "E" is the choice if you need a repeater with a built-in power supply, plus room for an extra receiver, transmitter, small duplexer and controller. The front panel provides status indicator lights, a speaker, a microphone connection, control switches, etc. Prices start at just $1,450!

If you need a receiver or transmitter as a board or in an enclosure, we can provide them. These are the same high-performance units that are used in all of our repeaters. All have our new QUALITY AUDIO AND STABLE OSCILLATORS.

Repeater Index

November, 2007

Special pull-out section from *The SERA Repeater Journal*

Life is a JOURNEY, Enjoy the ride!

COMET and Maldol

Base Antennas

CHA-250B VSWR graph

"One person can effortlessly raise the antenna at night when no one can spot it, and take it down before daybreak. This antenna is also a great choice for portable operations, such as quick and easy mini-DXpedition to a campground or a nice tropical island! In short, the Comet CHA-250B is simple to assemble, painless to elevate and is easy on the eyes, while at the same time getting you on 6 meters thru 80 meters without the requirement of an antenna tuner and ground radials. You'll even be able to work some DX while you're at it!" – Dan Dankert N6PEQ

COMET NEW CHA-250B BROADBAND HF/6M GROUND-PLANE ANTENNA
A newly designed broadband vertical with NO GROUND RADIALS. EXTREMELY easy to assemble, requires no tuning or adjustments and VSWRs under 1.5:1 from 3.5-57MHz! • TX: 3.5MHz – 57MHz • RX: 2.0 – 90MHz • VSWR is 1.5:1 or less, continuous • Max Power: 250W SSB/125W FM• Impedance: 50 Ohm • Length: 23'5" • Weight: 7 lbs. 1 oz. • Conn: SO-239 • Mast Req'd: 1" – 2" dia. • Max wind speed: 67MPH

COMET GP-15 TRI-BAND 52/146/446MHZ BASE REPEATER ANTENNA Gain & Wave: 52MHz 3.0dBi 5/8 wave • 146MHz 6.2dBi 5/8 wave x 2 • 446MHz 8.8dBi 5/8 wave x 4 • Max Pwr: 150W • Length: 7'11" • Weight: 3lbs. 1oz. • Conn: Gold-plated SO-239• 2MHz band-width after tuning (6M) • Construction: Single-piece fiberglass

COMET CX-333 TRI-BAND 146/220/446MHZ BASE REPEATER ANTENNA Gain & Wave: 146MHz 6.5dBi 5/8 wave x 2 • 220MHz 7.8dBi 5/8 wave x 3• 446MHz 9.0dBi 5/8 wave x 5 • Max Pwr: 120W • Length: 10'2" • Weight: 3lbs. 1oz.• Conn: Gold-plated SO-239 • Construction: Fiberglass, 2 Sections

COMET GP-3 DUAL-BAND 146/446MHZ BASE REPEATER ANTENNA Gain & Wave: 146MHz 4.5dBi 6/8 wave • 446MHz 7.2dBi 5/8 wave x 3 • Max Pwr: 200W • Length: 5'11"• Weight: 2lbs. 9ozs. • Conn: Gold-plated SO-239 • Construction: Single-piece fiberglass

COMET GP-6 DUAL-BAND 146/446MHZ BASE REPEATER ANTENNA Gain & Wave: 146MHz 6.5dBi 5/8 wave x 2 • 446MHz 9.0dBi 5/8 wave x 5 • Max Pwr: 200W • Length: 10'2"• Weight: 3lbs. 8ozs. • Conn: Gold-plated SO-239 • Construction: Fiberglass, 2 Sections

Maldol HVU-8 ULTRA-COMPACT 8 BAND HF/VHF/UHF VERTICAL ANTENNA
80/40/20/15/10/6/2M/70cm Only 1/2 the traditional size and weight of vertical HF antennas, and it includes 2M/70cm! Unique radial system rotates for balcony installations, the radials can all be rotated to one side. • HF and 6M: 1/4 wave-length • Gain 2M: 1/2 wave-length, 2.15dBi • Gain 70cm: Two 5/8waves in phase, 5.5dBi • Impedance: 50 Ohm • Max Power: HF 200W SSB • 6M–70cm: 150W FM• Conn: SO-239 • Height: Only 8'6" • Weight: 5lbs. 7ozs.

COMET GP-9 / GP-9N DUAL-BAND 146/446MHZ BASE REPEATER ANTENNA
BEST SELLER!• Gain & Wave: 146MHz 8.5dBi 5/8 wave x 3 • 446MHz 11.9dBi 5/8 wave x 8 • Max Pwr: 200W• Length: 16' 9"• Weight: 5lbs. 11ozs. • Conn: GP-9 Gold-plated SO-239 • GP-9N Gold-plated N-type female • Construction: Fiberglass, 3 Sections

COMET NEW H-422 QUAD-BAND HF DIPOLE Compact 40/20/15/10M "V" or Horizontal Dipole • Max power: 1kW SSB • Length "V" Dipole: 24' 3" • Horizontal Dipole: 33' 10" • Shipping length: 79" • Weight: 11 lbs 14 ozs • Wind Load: 3.02 sq feet • Required mast size: 1.5" - 2.5" diameter • CBL-2000 2kW Balun included • Simple installation, band tuning and profile change

HAMFEST/CONVENTION CALENDAR

We urge hamfest sponsors to send their correct dates to the *Hamfest Calendar* editor as soon as possible

(hamfest@sera.org).

We acknowledge and appreciate assistance in confirming dates from SERA & ARRL Directors, the ARRL, commercial dealers, and many clubs and individuals.

Deadline for the Feb. Issue is Dec. 31, 2007

November 2007

3 & 4 ..... Stone Mountain Hamfest
Georgia Section Convention
Alford Memorial Radio Club
• Lawrenceville, GA

10 ..... Central KY Hamfest
• Richmond, KY

10 ..... Montgomery Hamfest
• Montgomery, AL

10 ..... BeachFest 2007
Grand Strand ARS
• Conway, SC

17 ..... 2nd Annual Roan County Hamfest
• Rockwood, TN

18 ..... JARSfest
• Benson, NC

December 2007

1 ..... GAARC Swapfest
Gastonia Area Amateur Radio Club
• Gastonia, NC

January 2008

5 ..... 17th Annual Morristown Hamfest
Lakeway ARS
• White Pine, TN

12 ..... Winston-Salem FirstFest
• Winston-Salem, NC

January 2008 *(continued)*

12 ..... Greenwood Hamfest
• Greenwood, SC

12 ..... TechFest
Gwinnett ARS
• Lawrenceville, GA

February 2008

2 ..... South Carolina State Convention
Charleston ARS
• Ladson, SC

23 ..... Dalton Hamfest #26
Dalton ARC
• Dalton, GA

March 2008

8 & 9 ..... Charlotte Hamfest
• Charlotte, NC

15 ..... Charleston Area Hamfest
• Charleston, WV

29 ..... NC State Convention, RARS
• Raleigh, NC

April 2008

6 ..... 18th Annual Down East Hamfest
• Kinston, NC

12 ..... FreeFest
Midsouth ARA
• Bartlett, TN

19 ..... Mobile Amateur Radio Club
• Mobile, AL

May 2008

3 ..... South Carolina Section Convention
(Upstate Hamfest) Blue Ridge ARS
• Spartanburg, SC

16 - 18 ..... Dayton Hamvention
• Trotwood, OH

June 2008

14 ..... Winston-Salem Classic Hamfest
• Winston-Salem, NC

July 2008

12 ..... Firecracker Hamfest
• Salisbury, NC

August 2008

23 & 24 .... Roanoke Division Convention
West Virginia State Amateur Radio
• Weston, WV

September 2008

13 ..... Louisville Hamfest
• Shepherdsville, KY

For hamfests in ***bold:*** *please see ad in this issue.*

THE SERA OFFICIAL REPEATER INDEX

REPEATER LISTINGS FOR: GEORGIA ■ KENTUCKY ■ MISSISSIPPI ■ NORTH CAROLINA ■ SOUTH CAROLINA ■ TENNESSEE ■ VIRGINIA ■ WEST VIRGINIA

IMPORTANT NOTICE: The SERA ***Repeater Journal*** is Copyright 2007 by the SouthEastern Repeater Association, Inc., the officially recognized Amateur Radio Repeater Coordinating organization for Kentucky, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia.

The SERA ***Repeater Index*** may NOT be published or reproduced, in any form, by any individual, publication, electronic source, or any other means, for distribution without the expressed written consent of the SERA, Inc. All other rights reserved.

SERA will not be responsible for incorrect or omitted listings. The responsibility of correct listings is that of the actual repeater owner or sponsor. SERA makes every effort to keep the index as accurate as possible with information provided. The SERA ***Repeater Journal*** repeater lists contain certain repeaters which are NOT or have not been coordinated by SERA, or are not operating according to recognized frequency utilization plans. SERA does not necessarily condone or recognize such repeaters as being legal or illegal. They are listed in our indexes primarily to keep our readers informed of all repeaters known in the areas served by The SERA.

Some repeater owners or sponsors allow voice as well as other functions on their machine. Operators should check with owners for additional information about what is allowed, and what features are available. Digital Repeaters with normal input/output (pairs) are listed in the regular FM repeater index. Digital systems operating simplex are not coordinated by SERA and are not on our repeater lists. The *codes* column contains the tone or access code for those repeaters which the owner or trustee has given us written permission and asked that we publish them . Access tones are listed for the reader's convenience both in the By-State, and the By-Frequency listings.

Entries with "#" in front of city indicates repeaters added to this index that have not been coordinated through the local SERA state coordinator. Owners may work with their coordinator to get this indicator removed. Repeaters that have been coordinated but may not yet be on the air yet are listed with "PROP" in the codes column. Owners should notify SERA when on the air.

Repeater owners are reminded to contact their local Frequency Coordinator for assistance in coordination, changes in their listings, or any other requirements. All SERA services are FREE. It is very important that the annual SERA repeater datasheet, sent to all known repeater operators, be accurately updated each year and returned to SERA.

PLEASE NOTE

The Repeater Journal lists subtones used on repeaters ONLY if they are requested to be listed by the sponsor or owner. The listing of a subtone on any repeater does not in any way indicate it being a "Closed" repeater. Generally in most cases, the tones are used to eliminate noise problems and are listed at the owners request for users convenience.

SERA REPEATER LISTINGS - BY STATE - BY CITY . . . continue

It's All Free!

Did you know that SERA assistance in coordination, technical help, or interference information is FREE. We do not charge for any of our services. Our operating expenses are derived solely from voluntary membership of Repeater Owners and users.

In 2008, SERA enters it's 37th year of successful operation and service in the SouthEastern 8-states.

Our volunteers are here for you. If you have any questions about SERA, don't hesitate to call or ask. It's that Simple!

PLEASE NOTE

The Repeater Journal lists subtones used on repeaters ONLY if they are requested to be listed by the sponsor or owner. The listing of a subtone on any repeater does not in any way indicate it being a "Closed" repeater. Generally in most cases, the tones are used to eliminate noise problems and are listed at the owners request for users convenience.

Did You Know.....

One of the reasons we publish the *Listings By Frequency* is to help repeater users be top-notch operators. Before operating on a repeater that is an extended distance from you, check the *By Frequency* listing to be positive that you might not also be in the fringe coverage area of another repater.

Even if both repeaters involved operate "tone squelch" inputs, you may be interfering with low-power (Handy-Talky) users of a close-by repeater on the same frequency of your distant machine.

As a general rule-of-thumb, check the *By Frequency* listings before operating through a repeater more than about forty miles away. With co-channel repeater spacings of one hundred miles, you can easily begin to cause problems for other machines when you run enough power to get into the repeater that you want to reach.

Thank you for being a courteous operator!

Life is a JOURNEY. Enjoy the ride!

UNIVERSAL LIP MOUNTS WITH COAX CABLE COMBINATIONS

Several mounts with coax combos are available to chose from depending on your vehicles available mounting space and antenna size.

No holes to drill, held securely in place with set screws and adjust in multiple planes. Attach to virtually any lip edge that is 1/4" thick or less: trunk lids, van doors, SUV doors, truck doors, hoods, etc...

Deluxe low loss cable assy included for easy entry thru the weather seal without causing water leaks, wind noise, and/or cable damage.

Max power: HF 200W
VHF 75W
UHF 50W

Combine the coax style and length you need with a bracket from below.
(assemblies also available with N-connectors)

COMET
3D5M / 3D4M
Standard low loss cable assy.
Gold plated SO-239 / PL-259 connectors.
3D5M length 16' 6"
3D4M length 13'

COMET
CK-3M5 / CK-3M
Deluxe low loss cable assy.
Includes 18" of mini RG-188A/U type coax for easy entry from a lip mount without causing water leaks, wind noise or coax damage.
CK-3M5 length: 16'6"
CK-3M length: 9'9"

Choose the bracket that best fits your antenna and vehicle. All have multiple adjustments and fit virtually any lip 1/4" thick or less. Soft rubber protects vehicle finish.

For small antennas & limited space
MODEL / ANT CONN / COAX CONN
Maldol EM-5M SO-239 / PL-259

COMET
RS-840
Heavy-duty, 2 adjustment planes. For HF and heavier antennas up to 80".

COMET
RS-730
Heavy-duty, 4 adjustment planes, up to 60" antenna.

COMET
RS-720 / RS-720NMO
Med-duty, 3 adj planes, 60" ant.
RS-720: Accepts SO-239 conn
RS-720NMO: Accepts NMO conn

COMET
RS-520
Light-duty, 3 adjustment planes, up to 45" antenna.

Maldol
PRM-T
Heavy-duty, 3 adjustment planes, up to 80" antenna.

Maldol
MK-30H
12VDC motorized mount. Mounts to vertical or horizontal door lip. Up to 70"/19 oz. antenna.

Maldol
EM-B80
Light-duty, 2 adjustment planes, up to 40" antenna.

COMET
GRB-5M
Trunk lip mount, low-profile,black anodized stainless steel. Offset washers provide up to 17 deg. vertical adjustment of antenna.16'9" of deluxe cable included, 18" of mini RG-188A/U style coax for easy entry thru the weatherseal. Gold-plated SO-239/ PL-259 connectors.

COMET
CP-5M
Universal lip mount with coax, SO-239 andPL-259 connectors.

The rear doors on newer trucks are the perfect place to mount antennas • No holes to drill • Above roof line • Easy access • When mounting to a van, SUV, truck, etc., use the CP-5M or build your own system with components shown above. There are several mount sizes, coax diameters and coax lengths from which to choose.

Here is a photo of Bill Morine, on behalf of Tim Slay, congratulating Hamilton "Ham" Hicks, KB4BR, for his help in getting HB1340, the Antenna bill, passed. The plaque was a very appropriate token for Ham's help, as the former mayor of Wilmington, in testifying before committees and in getting Rep. Danny McComas and Sen. Julia Boseman, both from New Hanover County (Wilmington), to be the sponsors of the antenna bill. To refresh your memories, the bill passed unanimously in both chambers. It also passed in its first year of introduction, a rarity. North Carolina became the 25th state to enact a state version of PRB-1.

The event was held at the regular bi-monthly meeting of the Wilmington VHF Association. For those of you who may not know all the cast of characters, the folks are (L-R) Ham, KB4BR, and Bill, N2COP.

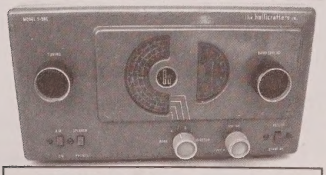
Nostalgic Wavelengths

David Bower, K4PZT

Vintage Ham Receivers --And Getting Shocked

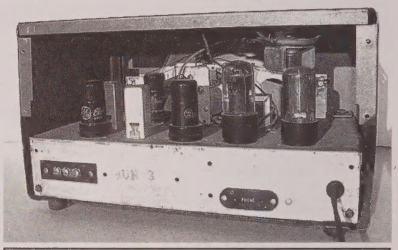
Many of us see lots of vintage amateur radio receivers at hamfests and we'll sometimes stop and linger a while. The front panel is always what we see first. Large sophisticated dials and nice knobs, along with an analog meter catch our attention. But it is what's inside that really counts and is fascinating. Of course there are lots of vacuum tubes. A typical

A Hallicrafters S-38C AC/DC receiver (angle view)



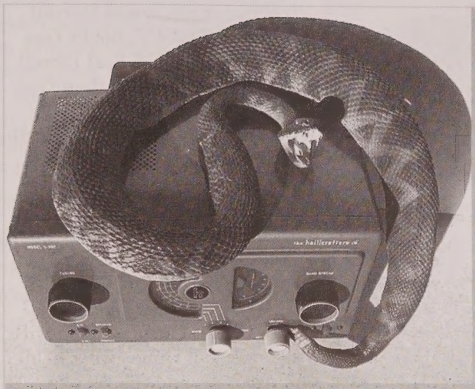
A Hallicrafters S-38C AC/DC receiver (front view)

power rectifier was often a 5Y3 or 5U4--and, if it's old enough; a type 80 was frequently utilized. Along with the transformer, other devices such as choke and filter capacitor were employed to complete the power supply. Most receivers used a large, heavy power transformer and were know as AC type receivers. 1940 vintage receivers such as the SX-25 were of the AC type, and newer ones like the SX-99 and HQ-170 were also of the AC type. A well designed (and safe) power supply added significantly to the cost for manufacturing the receiver, along with a larger cabinet. The tube filaments were typically 6.3 VAC; as supplied by a low voltage winding from the big power transformer, and connected in parallel. But some receivers such as the famous Hallicrafters S-38 were of the AC/DC vintage without a power transformer. To power the tube filaments, series wiring was used. The total voltage for all the filaments added up to "about 120 volts" so if one filament burned out, all the tubes went dark. As an example, the tube configuration for an S-38C consisted of a 35Z5, 50L6 and three other 12 volt filament tubes. Together, the five series connected filaments added up to 121 volts. It worked the same way as series-strung Christmas tree lights. Years ago, three-prong power plugs were not used. In fact, the AC receptacles in older homes only had two holes. There was no ground connection, or third hole, at the AC wall outlet. And the two prongs were the same size (unlike polarized two prong plugs sometimes used today with different sizes of prongs). So, as a result, you had a 50/50 chance of plugging the receiver power connector into the outlet improperly. This was an invitation to get shocked--if one placed their hand on the metal cabinet of the receiver while simultaneously touching a ground or another piece of equipment with the other hand. We dealt with such situations in a somewhat old-fashioned way. We'd use a 120 volt light bulb with two leads soldered to the base for testing. If one lead was touched to the metal receiver cabinet and the other to a ground connection--and the bulb glowed brightly--the chassis was hot! The fix was simply to reverse the power plug and check it again.



Back view of the AC/DC receiver. Note the absence of a power transformer for isolation. The half wave rectifier tube, a type 35Z5 is on the far right

A Hallicrafters S-38 was my first real ham radio receiver and I used it with an International Crystal FCV-1 converter for six meter operation. I also employed it on 40 meters for HF, CW and general short wave listening. It was a potentially dangerous situation, but many hams just starting out used inexpensive receivers of the AC/DC type because they were cheaper. You just had to be careful and make sure the chassis was not hot--and this simple light bulb tester protected many of us from being shocked as we pursued our hobby.



Safety Issues

Restoring and using older vintage AC/DC receivers should be approached with safety as the main criteria. Some receivers, such as the Hallicrafters S-38C, had a metal chassis and the user could receive a sizeable (if not lethal) shock if the metal cabinet was touched by the user with one hand, while touching something that was grounded with the other hand. The light bulb tester mentioned in the article is one method, but it should be approached with caution as the two prong AC plug could be "plugged in wrong" or, by some anomaly, the AC power circuit in the home has become reversed. A far safer method is to use an AC power isolation transformer between the AC outlet and receiver.

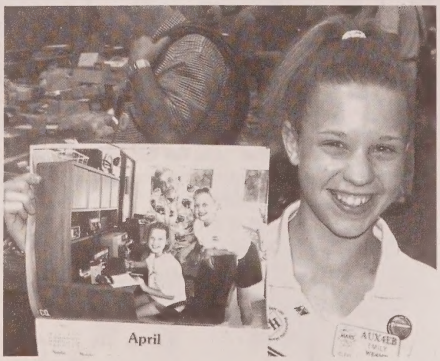
The type 35Z5 rectifier tube used in the S-38C AC/DC receiver mentioned in the article. The "35" indicates the filament voltage. The filaments for the 5 vacuum tubes in the S-38C add up to 121 volts, and are powered directly by the incoming AC line voltage (as supplied to the receiver).

Some other AC/DC receivers, such as the Knight Ocean Hopper, also presented a problem. While the optional case was non-metallic, the front panel (being metal) certainly presented a shock hazard. Some receivers used non-metallic construction for the cabinet and front panel, but a shock hazard was still present if the user came in contact with the metal (internal) chassis, or even the "metal shaft" of a control protruding through the panel. True, plastic knobs were often used, but one could get a shock if a finger came into contact somehow with the metal shaft.

If a vintage receiver has a tube configuration such as the S-38C in this article, it is a sure bet it has a potential shock lurking in the background that can "take a bite" out the user. So please be careful!!!

Emily Bishop, YL

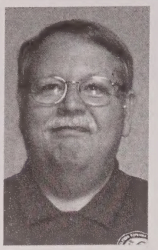
Emily Bishop (WE4MB) is an excellent example of a young amateur radio operator. Her previous call was W6EMB. Emily was first licensed at the age of 8 and now holds an Extra Class License. Now 12, she is the ARRL Tennessee Assistant Section Manager for Youth and is actively supporting our hobby by her participation in various activities. Emily conducted the Youth Forum at the 2007 Knoxville Hamfest and Electronics Exposition and ARRL Tennessee State Convention on June 9 to a packed room of hams. Later, she spoke to thirty DXers and contesters at the July 16 meeting of the East Tennessee DX Association. This was followed by her active participation in youth activities at the Huntsville Hamfest and ARRL National Convention in August. She will be attending the Southeastern DX and Contesting Organization September 29 as a participant in youth activities.



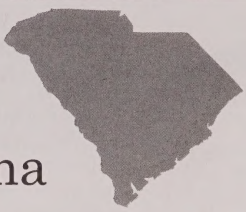
April

Emily was pictured in the annual CQ amateur radio calendar. She is pictured holding a copy of the calendar at the Huntsville Hamfest in August of 2007.

Emily is active in Army Mars, is a member of SERA, the ARRL, the Cleveland Amateur Radio Club and the East Tennessee DX Association. She enjoys many facets of amateur radio and is an excellent ambassador for youth, and our hobby.



South Carolina



Roger Gregory, W4RWG

Hello South Carolina,

Due to time and space issues, the South Carolina column in August was cut short. Let's take the chance to catch up on the news.

From the **Blue Ridge Amateur Radio Society**, The Greenville WCARS VE team gives exams the first Saturday of each month at the Red Cross Building on Grove Road. The contacts are John Chism ND4N or Sue Chism N4ENX. E-mail <n4enx@mindspring.com>.

The **Florence Amateur Radio Club** welcomes new members John Ratliff K4KSX, and Doug McDonald KI4TTS. The FARC member of the month is James McColl KA4PVT. James has been a ham for 25 years and is active on several nets.

The **Greenwood Amateur Radio Society** helped with the March of Dimes walk on April 28. Congratulations to Gay Willis KI4VFT, Jummie Dean KI4VFQ, and Jewel Mimms KI4JO for passing their Technician tests, and Darrell Manning KI4CCZ, Bobby Gosnell KF4ZYO, and Earl Powell KC4AXY for passing their General Tests.

The **Ridge Amateur Radio Club** enjoyed a power point program on personal weather stations presented by Jimmy Teeter KI4PKK. The RARC had a tailgate party on April 28 at Shealy's Barbarcue.

The **Spartanburg Amateur Radio Club** assisted with the March of Dimes walk held on April 28. and the Bicycle Assault on Mt. Mitchell on June 11. The SARC was glad to have it's first Lady Field Day Chaiperson, Ann Thompson KI4MEE who is also club treasurer. K3KX, Kyle presented a program on RF & Microwave Integrated Design.

From the **Union County Amateur Radio Club,** The

The 35th Annual and Original

CHARLESTON HAMFEST

AND COMPUTER SHOW

SATURDAY, FEBRUARY 2, 2008

ARRL 2008 SC State Convention

Notice: This Hamfest is considered a family affair. The committee reserves the right to eject any inappropriate materials from the premises.

Prizes: $400, $200, & $100 cash. Door prizes during the day. **Activities:** Forums and Bingo.

Food: World Famous C.A.R.S. Dogs and BBQ Sandwiches. **Volunteer Exams:** On site at 1:00 pm.

Exchange Park Fair Grounds, Ladson SC

Union WCARS VE Team holds exam sessions the 2nd Thursday in January, March, May, July, September, and November at 7:00 pm in the Union County 911 Center training room on North Pinckney Street in Union, S.C. Contact Jim WJ4C for information, <wj4c@charter.net>.

Attention South Carolina Repeater Owners. Are you a SERA Full Member? I would like for you to consider joining the SouthEastern Repeater Association. The cost is only $20.00 per year. Send your full membership dues in today. Lets make South Carolina 100%. SERA needs your support and with full membership not only will you support the SouthEastern Repeater Association, you and your designee will receive the Repeater Journal for as long as you are a full member. What a deal!

Would you like to see news from your club in the journal? It's easy! Tell your club Secretary to make sure I am on their newsletter mailing list.

73,
Roger W. Gregory W4RWG
SERA President,
SC Director

It's All Free!

Did you know that SERA assistance in coordination, technical help, or interference information is FREE. We do not charge for any of our services. Our operating expenses are derived solely from voluntary membership of Repeater Owners and users.

In 2008, SERA enters it's 37th year of successful operation and service in the SouthEastern 8-states.

Our volunteers are here for you. If you have any questions about SERA, don't hesitate to call or ask. It's that Simple!

QSL TIPS

Ron Young, W8RJL
Vice President
USS Wisconsin Radio Club
Special to the SERA Repeater Journal

2301 Kingsman Lane
Virginia Beach, VA 23453

Please note that when sending a QSL to a Special Event Station it is almost always a requirement to include a SASE (self addressed stamped envelope). The reason is because Special Event Stations get hundreds of requests for QSL cards. A 41 cent stamp on 100 envelopes is $41 and some clubs can't afford that. Envelopes are an additional cost plus it takes time to fill out your name and address.

If you want a SPECIAL EVENT QSL or CERTIFICATE (sometimes called "wall paper") it should be worth two stamps and two envelopes to you. Also, please write your call sign, date, time, & band across the top back of the outside envelope to aid in matching the envelope to a log before the envelope is opened.

By the way, If you send a QSL card directly to a foreign country, do not put a United States postage stamp on the inside envelope as it will not work in a foreign country. Rather than postage it is best to include a crisp one dollar bill (sometimes called a "Green Stamp"). You can also use what is called an International Reply Coupon (IRC) which can be purchased from some post offices but they will cost you more than a dollar so unless you already have some IRC's the "Green Stamp" is the easy way to go. With increased foreign postage rates, some countries require $2. In some countries it is against the law to have US money.

Many stations will not QSL if you do not include a SASE, your card goes into the waste paper basket and you have wasted your QSL, envelope, and 41 cents.

I hope this information helps you receive many wonderful QSL cards and certificates in the future. For more information on QSLing go to <www.arrl.org/FandES/ead/materials/QSL_Cards.ppt> .

RJ 09-07

Arghhhhhh!!!!!! This has been a really difficult summer for me personally so I've had little time to "play radio". I have two projects in process but they are just "not ready for prime time" yet. One project required me to build a variable high-voltage low-current supply that I never got the time to build. Hopefully that article will be in February or May of next year. Now that I've got you a little curious about whatever that could possibly be I'll just clam up and keep my secrets. I will say that just about every ham rig has one of these. Now for this month -

Missing Curiosities from the past . . .

A long time ago, while researching some other interesting (at least to me) stuff I ran across a reference to a special tube made by GE. I've seen the reference a few times and each time I stop and have one of those Zen moments where I go "hummmmm". GE announced the tube with a lot of fanfare in several publications but I only have a copy of the GE Ham News from Jan-Feb, 1951 that discusses it. It was the cover photo.

The article started with: "The new miniature magnetron tube recently announced by the General Electric Tube Division will undoubtedly find itself in many ham shacks in the near future. This tube is capable of operating from 300 to 900 megacycles at a quarter-watt output. Although designed primarily for television receivers operating in the proposed ultra-high-frequency television band, the Z-2061 will find wide use whenever a low power oscillator at these frequencies is required. The price of the Z-2061 will be comparable with other television receiver tube prices, which means that the amateur finally will be able to procure a low cost tube for operation on the ultra-highs." [1]

In 2001 several industry magazines mentioned in their 50 years ago column "August 1951 Radio-Electronics featured GE's (then-) new Z-2061 miniature magnetron vacuum tube. This device was a breakthrough in oscillator technology. The Z-2061 was used as a local oscillator in UHF TV receivers, CBs, and RE (sic) generators."[2] I have my doubts this tube ever became a production item, or if it did, it was a short run. I doubt that it would have been competitive with cheaper tubes that were becoming available in the early 1950s that didn't require magnets. And I'm sure it was never used in "CBs". Or "RE" generators, whatever they were.

Almost all magnetrons are

Electrophone (inexpensive condenser microphone) . . . . . page

Technical Information (Z-2061) . . . . . page

of the cavity-type, which limits the tube to a very narrow frequency sliver. "Other forms of magnetrons have been devised, but they have found only limited usefulness."[3]

This type of magnetron is called a split-anode type but I've never personally seen one. Various editions of the Radio Handbook, the one published by Sam's, not the ARRL, cover some of the theory with later versions each having a little more update than previous editions.[4] Most other common references I checked discuss only the cavity magnetron.

All magnetrons work by passing an electron stream through a magnetic field. The magnetic field makes the electrons curve, and if the magnetic field is strong enough the electrons become "loopy" and oscillate. Without a built-in cavity an external tank circuit will control the frequency.

I suspect that the Z-2061 may have been the prototype for the GE 6AE4 - another very rare tube, which is also a form of cavity-less magnetron. I'm not sure either was ever in production except maybe on a limited basis. By the time I was 10 (1963) I had graduated from disassembling old radios to scrapping out old TVs. By the time I was 18 probably a lot more than 100 old TVs had been under my knife, not to mention the many TVs I repaired. (Disposing of the scrapped picture tubes is a fun story for another day.) But I never saw anything like the Z-2061or even a 6AE4. Most 1950s TV tuners that I am familiar with had removable strips that rotated the various LC parts into contact with the electronics. These strips were mounted on a big turret. Few televisions tuned past channel 13 until the FCC forced the issue in the early 1960s.

Of course, just because I never saw one doesn't mean it didn't exist. But I do have more than a passing familiarity with 1950's TVs, at least the post 1955-ish ones. My dad owned a furniture store and I started doing the TV service long before I could drive. His knowledge of and interest in electronics stopped at the power cord and it was hard to find anyone who could, or would, do service work. It freaked customers out to have a kid show up with a tube caddy. Don't tell anyone, but TVs were easy to fix then. Once the magic picture show was back on I frequently would get offers of old non-working TVs along with the line "You can have it if you can fix it." After appearing appropriately grateful, sometimes I would ask (with a smile, of course) "If I can't fix it, do I have to return it?" Smart-Alec kid. The most common problem was a 5U4-rectifier tube or something similar; then I would sell the repaired TV's and scrap the rest for parts. It was a great gig for a kid, especially a ham. It also paid my way through college.

More text from the 1951 GE Ham News article: "Tuning, in the test oscillator pictured, is accomplished by changing the shorting bar on the two anode lines. The oscillator pictured may be tuned over the range of 300 to 900 megacycles. Output may be obtained by coupling to the anode line in a manner similar to the method used with other parallel line oscillators. "

The last line of the 1951 article read "An early issue of the Ham News will give constructional data on equipment designed for amateur services and employing the Z-2061." And that is the last reference I've seen on the Z-2001 and I have GE Ham News through 1955. Periodically I have done some digging for more information but I've not even found a spec sheet. I would be interested if anyone has ever seen one.

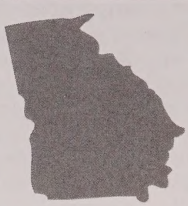
Georgia



John Talipsky, N3ACK

Fall has arrived in Georgia and soon the temperatures will be giving way to cooler times. Send me announcements of your upcoming events as well as pictures and follow-ups of your Fall events. Also, if you would like to see something in particular have a regular spot in this column let me know so that I may work on it for upcoming issues. I can be contacted at n3ack@sera.org.

Club Happenings

The Atlanta Radio Club has announced a Fall HF Event and Picnic scheduled for Nov. 10th 11AM - 4PM at Tanyard Creek Park on Collier Rd in Buckhead. Everyone is invited to enjoy the day. Drinks and a light lunch will be supplied. The club wants to extend a special invitation to new hams to come out and learn some HF. A club station and operators will be available to all. A certificate will be given to all who make their first HF contact at the event. You are welcome to bring your VHF and HF rigs and operate. Mobile operation from the parking lot is also welcome. Strut your stuff! For more information please contact Dave Moore/KU4MT via email at coachdavidmoore@yahoo.com. The ARC also would also like to congratulate the follwoing slate of officers who were elected at the August meeting:President - Jim Farmer, N4IBW; Vice President - George Lane, KI4DSO; Secretary - Bill Perkins, KB-4KFT; Treasurer - Charles Golsen, W4CHG. Good luck on another successful season!

The North Georgia Tri-State ARC held its annual elections on Tuesday September 4th, congratulations to the following slate of recently elected officers: President - Richard Deemers, Jr., KI4SZW; VP - Don Deyton, KF4CU; Secretary - Rullison "Arch" Archer III, KG4KVZ; and Treasurer - Walt Bowers, Jr., KF4ZOT. Thanks to Steve Dunkle, KE3PL, our outgoing President, and special thanks to Leonard Shick, WB3AYW, the club founder, for a job well done as both secretary and treasurer during the past year. Leonard is the Trustee of the club repeater KI4DZY. Don Deyton, KF4CU, maintains his Vice Presidency for another year, he is also our webmaster for <http://www.ki4dzy.nottely.net/>. Please visit the above web site for more information about the club.

At the October 27 meeting of QCWA Peach State Chapter 49, Paul Pescitelli, K4UJ, will be doing a presentation on his experiences during this year's DX-pedition to Scarborough Reef. All are welcome. We meet at the Ryan's restaurant near the intersection of Jimmy Carter and Peachtree Industrial Boulevards, in Norcross. Eat at noon, meeting to follow.

During the month of October, SEDX Club members will be enjoying a little friendly competition. As part of their new mentoring program, they've been telling new HF operators that you don't have to have a tower, a state-of-the-art beam and a megawatts amplifier to have fun working the world. To prove it, during this month, they'll be limiting themselves to the use of no more than 100W and a wire antenna. The objective will be to see which club member can work the most DX entities. Should be interesting. Congratulations to this fine list of recently elected officers: President - Bob Allphin, K4UEE; VP - Bob Carroll, W2WG; Secretary- George Nicholson, N4GRN; Treasurer - Mike Weathers, ND4V; and Activities Manager- Gary McConville, WB2SQ. Best wishes to all of them for another outstanding year.

Georgia Young Hams

Gary Headrick, KD4VQT, shared the following report on the first ham club meeting held at Otwell Middle School: We had our inception meeting on September 7 and had 12 interested students several of whom are interested in pursing their technician license. Our school, PTO, and Kenwood Communications have made contributions to the beginning of the club and its activities. We look forward to the continued growth of our students as we provide world class education in wireless communication with an emphasis on amateur radio. One of our goals is to be able to provide assistance to the geography classes at Otwell by allowing the students to talk to people in the countries that they are studying, where possible, and to provide assistance to the eighth grade Physical Sciences Classes when they study electronics.

Georgia Hamfest Report

The Alford Memorial Club Hamfest will be held at the Gwinnett county fairgrounds on Sugarloaf Parkway, Lawrenceville on November 3rd and 4th. Multiple special activities geared toward youth. Advance tickets available online at www.totr-radio.org (Those tickets will be held at the Will Call Ticket booth for the purchasers.) On-line Ticket Purchasers can also buy boneyard spaces, and Flea Market Tables. If you can only make it to ONE hamfest this year, this is the one to attend. Multiple forums, including special guest speaker from ARRL, Dennis Durra, K2DCD. Hope to see you there.

Georgia Awards and Events

Ever wonder why a state the size of Georgia would have 159 counties? California, which is THREE times as big, only has 58. So why 159 for Georgia? Some people say it's to provide a more fertile environment for, um, "local politics." Others say it's so that every person in the state could go by mule from his home to the county seat and back in one day. We think not. We think that, in a moment of clairvoyant foreknowledge, our state leaders knew that Ham Radio operators of the next century would appreciate a challenge, and structured the present administrative nightmare solely for the benefit of our hobby! The Atlanta Radio Club, with support from the ARRL GA Section, would like to remind everyone about the WAG Award. The "Worked All Georgia" Award is open to all radio amateurs who can provide proof of two-way radio amateur radio contact with all 159 counties in Georgia. For more info: <http://www.w4doc.org/arc/wagaward.htm>.

SERA
Officer Nominating Committee Report

Alex,

As I have spoken with all the executive incumbents, and Alan McClain, I am reporting to you as chair that we are renominating the current officers for another term. (Roger Gregory - President, Richard Wright - Vice-President, Johnny Wofford - Treasurer, and Alex Hedrick - Secretary.)

Thank you for your patience as we took a bit longer than expected to report. With this report, our committee is now dissolved.

Steve Grantham, AA5SG
Mississippi Director, SERA
Nominating Committee Chairman

Steve,

Thank you for your service and thank you for your consideration in re-nominating me for the post of SERA Secretary.

By copy of this message I am alerting Tom Gallagher, SERA Publications Chairman, pursuant to SERA By-Law 24.A.2 of the committee's report.

Regards,
Alex

To the Secretary, President, and Chair of the Nominating Committee:

The report, as furnished, is hereby published on page 54 of the November, 2007 issue of the organization publication, *The SERA Repeater Journal*. As instructed by the SERA Secretary, I will publish the appropriate form on page 55 of that issue to enable those wishing to do so to execute a "nomination from the floor."

Notice is hereby served to all FULL MEMBERS (as defined in the SERA bylaws) of the nomination of the committee's slate, and the opening of the period for other nominations. Interested parties should contact the SERA Secretary directly.

Tom Gallagher, N4IOZ
Publications Chairman
The SouthEastern Repeater Association, Inc.

SERA NOMINATION FORM

For the Office of SERA President, Vice President, Secretary or Treasurer

This completed form must be mailed to the Secretary - postmarked no later than NOON, Nov. 28, 2007.
Note: the Secretary must also be notified verbally by phone no later than NOON Nov. 28, 2007.

To the SERA Secretary:

The below named person is nominated to the Office listed. The nominee has been contacted, has agreed to serve, and an acceptance letter is enclosed. The nominee (1) is a SERA FULL MEMBER, appropriately listed as such in the February 2007 Repeater Journal, (2) is not an officer in any other co-ordination council (3) and fully qualifies under the bylaws of SERA to hold office. It is understood that this nomination from the floor, signed by myself and THREE other eligible SERA Full Members, will be added to the nominating committee's list of nominees. This "from the floor" nomination will cause an election to be held by written ballot, mailed to every Full Member in the SERA District the nomination effects .

NOMINEE INFORMATION: (Use separate sheet for EACH Nomination - Pres./V. Pres./Sec. or Treas.)

Nominated for the SERA office of _____

Name _____ Callsign _____

Address _____ Phone ( ) _____

City _____ State _____ Zip _____

Is a representative of the _____ Full Member Repeater System

Person has been contacted and has agreed to serve: [ ] Yes. Acceptance letter enclosed? [ ] Yes

Please include a brief biographical sketch of nominee on separate sheet of paper. Enclosed? [ ] Yes

This SERA Nomination is certified by:

Name [print] _____ Callsign _____ State _____

Phone [ ] _____ Signature _____

I am a member of _____ SERA Full Member Repeater Group.

Please list three other Full Member Repeater Representatives (each must sign this sheet)

(1) Signature _____ Callsign _____

(2) Signature _____ Callsign _____

(3) Signature _____ Callsign _____

Mail this fully completed form with other necessary paperwork to:

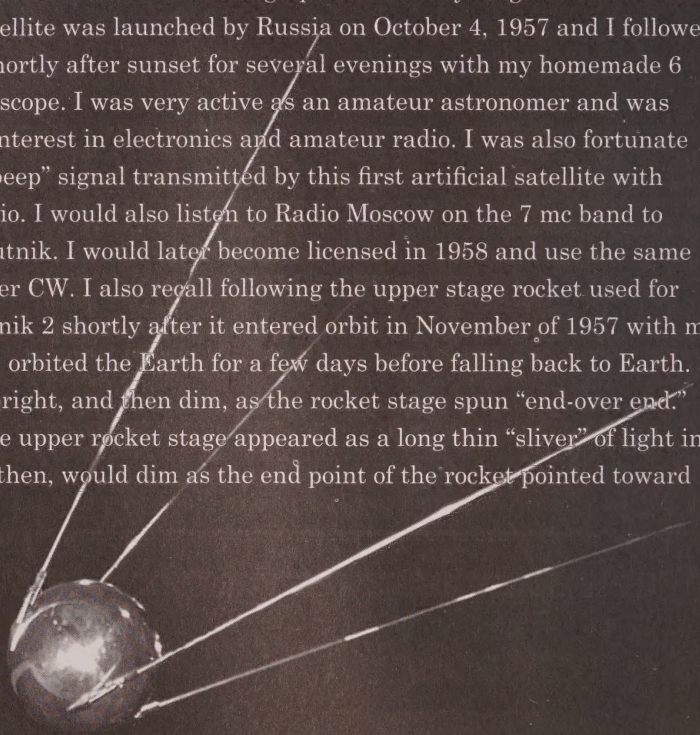
ALEX HEDRICK N8FWL, SERA Secretary, 1021 Woodlawn Ave, Beckley, WV 25801.
This mailing must be postmarked no later than NOON November 28, 2007, and verbal notification by phone (888) HAM-SERA (888-426-7372) to the Secretary is required by NOON Nov. 28, 2007.

IMPORTANT: All eligibility conditions for nominee as per SERA Bylaws, and all requirements of this nomination form must be met for a legitimate nomination from the floor. Otherwise, the nomination must be disqualified as non-valid for the forthcoming election.

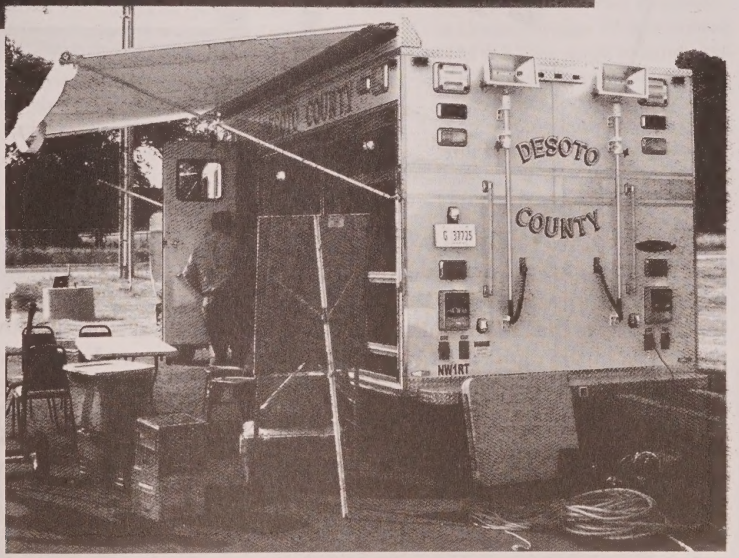
"Beep..... Beep....."

David Bower, K4PZT

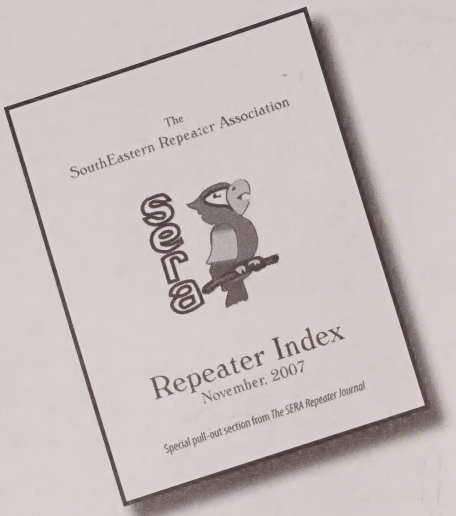
I vividly recall the events surrounding Sputnik 1 as a youngster back in 1957. The 184 pound satellite was launched by Russia on October 4, 1957 and I followed it across the sky shortly after sunset for several evenings with my homemade 6 inch reflecting telescope. I was very active as an amateur astronomer and was just acquiring an interest in electronics and amateur radio. I was also fortunate to hear the "beep-beep" signal transmitted by this first artificial satellite with my short wave radio. I would also listen to Radio Moscow on the 7 mc band to get updates on Sputnik. I would later become licensed in 1958 and use the same receiver on 40 meter CW. I also recall following the upper stage rocket used for the launch of Sputnik 2 shortly after it entered orbit in November of 1957 with my telescope as it, too, orbited the Earth for a few days before falling back to Earth. It would get very bright, and then dim, as the rocket stage spun "end-over end." At its brightest, the upper rocket stage appeared as a long thin "sliver" of light in my telescope and, then, would dim as the end point of the rocket pointed toward Earth.



The United States entered the space age with the successful launch of Explorer 1 the evening of January 31, 1958, under the leadership of Dr. Wernher von Braun. As I recall, he did it in only 84 days after being given the directive to get a satellite in orbit ! On two occasions, I was fortunate to meet Dr. von Braun. On one such occasion, I was in Gatlinburg, TN to hear him speak. I, of course, had my film camera with me and the PR person for Dr. von Braun, thinking I was with the press, invited me to attend a brief photo op and interview held after his talk.



The DeSoto County EMA Rescue Truck was recently on display. For more info on this and other news, see page 6.



What's With The Extra Cover In This Issue?

Honestly, we really didn't do much different, but we hope that this is useful to you.We put a lot of hard work into each and every issue of *The SERA RepeaterJournal*, and we appreciate all the loyal readers who read from cover to cover. However, we also know that many folks join SERA just to receive the most up-to-date listing of repeaters in the eight SERA states. So, in this issue, we have an extra treat for you.

It's been longstanding practice to put *The SERA Official Repeater Index* in the center of the magazine. It's been a while since we've mentioned it in print, but we do this so that when the next issue arrives you can pull the old index out of the magazine and toss it in the car for reference as you drive. Even if it's six months old, our index is *still* more current than "Brand A."

So, when Mick at Comet Antennas asked if we could put all four color ads into this issue, we said "SURE!" and immediately thought of how this could work for our loyal readers.

Thanks to everyone on the production crew, we are able to do this. Especially, we want to thank Comet Antennas for their long-standing support.

Looking back through old issues, it might seem that these lockers have appeared in the SERA Repeater Journal more than any other piece of equipment, over more years. Joining these lockers at the High School in Vinton, VA during the Roanoake Hamfest were were Don Williams, W4VT, and Tom Gallagher, N4IOZ. If you see us at a hamfest, feel free to stop and say "hey" and pick up a button, or renew your membership!

Mississippi

Charles Diamond, K5ASL

Greetings,
Hello from Mississippi.

It seems like it has been quite some time since I have written anything to you folks, so I thought it was about time. We got moved and I am enjoying being even more in the woods. Biggest problem I have had has been getting phone service. Right now the phone line is in a ditch but boy does it work. See, living down here does have some drawbacks but I have finally gotten a sort of higher speed internet switched to Wild Blue and it works pretty good even on Echolink with some latency.

WHATS GOING ON

The MXDA will have a fall picnic coming up on November 10th at the Brooklyn Community Center in Brooklyn Mississippi. Please contact N5FG by emailing:Floydge@datasync.com for more information or directions.

The 2007 Mississippi Simulated Emergency Test will have already occurred; hopefully we will have some information about how it went in the next issue.

Fall Hamfest 2007 will happen November 16-17 and is sponsored by the Jackson County Amateur Radio Association. It will be held at the St. Martin Community Center in Ocean Springs MS. For details and direc-tions go to www.qsl.net/kbfhx/fallfest.html

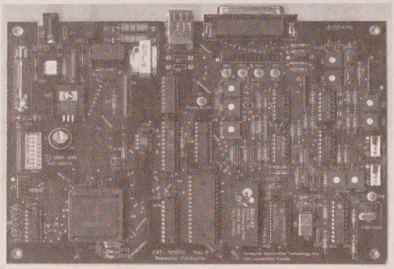
The Pearl River Ham/Swapfest will be held December 8, 2007. Sponsored by the Pearl River Amateur Radio Club, indoors at the Fairgrounds. I hope to be at this one, as I hope to make it to the Fall Hamfest in Ocean springs. Please contact WA5WRE for more information.

I hope to have much more information and more stories etc. for you folks to read in later columns along with some pictures of stuff going on down here and elsewhere in Mississippi.

Thanks for the emails
k5asl

CAT-300DXL Repeater Controller

The CAT-300DXL has all the features of the very popular CAT-300DX including a full feature autopatch and a Remote Base Port.



Features Include:

- *Voice Synthesizer ID*
- *(20) Voice Messages*
- *Real Time Clock*
- *(20) Position Scheduler*
- *Full Feature Autopatch*
- *(100) User Speed Dials*
- *Emergency Speed Dials*
- *Reverse Autopatch*
- *Remote Base Port*
- *CW Identifier*
- *(20) User Macros*
- *DTMF Audio Muting*
- *DTMF Pad Test*
- *(4) Logic Inputs*
- *(4) Output Switches*
- *Optional Windows® Editor*

Ordering Information

Amateur Radio Newsline, CQ magazine and Yaesu (Vertex-Standard) named Grant Morine, W4GHM, of Wilmington, NC the 2007 Young Ham Of The Year on July 5th. Grant directed a project in which he designed and supervised the building of thirty 220 MHz J-Pole antennas as indoor emergency back-ups for hospitals and Red Cross Chapters in coastal North and South Carolina on behalf of CARES, Carolinas Amateur Emergency Services. $200. of the $400. project was PVC pipe donated by Lowe's. The project involved 10 scouts and 4 adults who donated 160 hours to the project. Each antenna has its own PVC storage tube and instructions. Grant's nomination came from his project mentor, Paul Magnabosco, AD4HZ, of Wilmington, and Larry Matheny, KI4WLJ, and Mike Smith, KI4UFM, of the Coastal Carolinas Health Alliance (CCHA) which oversees CARES and sponsored Grant's project. *L-R Don Allen, Grant, Dennis M, Bill Pasternak.*

Attention Repeater Owners

Every fall, every repeater owner on record in SERA Territory is sent a "Data Sheet" from the SERA Database Manager. Please take a few momnets to review the information on this document, make changes, amendments, or corrections as necessary, and return it to PO Box 215; Tobaccoville, NC 27050. As with all your station documents, please make a copy for your records.

The information from these Data Sheets is used to update and maintain the records in the coordinators' database. This enables future repeaters to be coordinated in such a way as to minimize interference with current repeaters and repeater users.

If your repeater is no longer on the air, and you do not intend to return it to operation, *please* return the form with a notation to that effect. This will free-up a frequency pair in your area for a new repeater.

One additional note: failure to return your data sheet for two consecutive years could result in the automatic de-coordination of your repeater.

SERA thanks you for your cooperation in this matter, and we hope to see your paperwork in the mail very soon!

I Could Be A Grinch

Isadora Rothrock, XYL-VO1DER
Special to the SERA Repeater Journal

I have had reason to begin to distrust the establishment and the decisions that it makes for us. For example, holidays seem to have migrated around on the calendar. My OM and I were shopping at a local home improvement store in mid September when I began to feel light-headed. I was in the garden department, while the OM had gone to the hardware section to look for a particular sized screw, so I sought a place to sit down. Nearby was a comfy-looking porch swing, so I parked myself there. As I recovered, I looked around and noticed that I was between two aisles of Christmas decorations! In September! It seemed so odd, as if I had found the last bit of peaceful summer before the holiday hustle and bustle set in. Although temperatures still hovered in the 90's, the retailers were in a hurry to put summer behind them and plunge headlong into the countdown to x-mas. Not that I dislike the holidays, it's just that I look for them when the leaves are turning or the weather is cooler or when the calendar page is turned to October. My garden was still in full bloom! Local schools had been in session for only two weeks! And someone was going to make me start having to think of snow and the bleak days when tree branches are bare; when going to work and coming home both involve turning on lights? Never! That swing now sits on my deck in the backyard. It is my quiet rebellion against the busy rush that begins far sooner than I am ready to endure.

And while I am on the subject of speaking against things that are forced upon us by "them"... I recently acquired my first i-Pod. While converting my cd collection, I noticed that the information that automatically loads for each album is not always correct. One artist's name was changed by the software gremlins to begin with MS014. It took me a while to figure this out, because I trusted that the software that was retrieving the information was somehow going to always be right. I have learned to question the software, but other, more burning questions arise.

I wonder why the Army Corps of Engineers has decided to continue moving water out of Lake Lanier. Did they forget that the citizens of Atlanta need water? The powers-that-be don't always seem to be in touch with the experience and needs of real people. All this to say, I can get grouchy about x-mas being paraded in front of me in September. When they push too hard to sell me stuff before I'm in the market for it, I usually resist as long as I can. Some stubborn gene kicks in. Perhaps we need to take back the holidays and start to celebrate in low-key, non-traditional ways. When I fist moved away from home with my kids, there was no family with whom we could celebrate Thanksgiving in the traditional way; so we drove east until we met the ocean and established a new way to 'do' Thanksgiving; flying kites on the beach! With the kids now grown and living in the big city, we 'do' x-mas the weekend before the 25th of December. We just bake cookies and watch our favorite movies and spend time together (usually laughing). For us, it works. I am beginning to dislike all of the commercial x-mas trappings and fantasize what a winter holiday without the glitz and the mandatory exchange of presents could be like. What if we decided not to decorate or wrap presents? What if all of the outward baubles and trinkets went missing? Does it seem harsh? I might be a Grinch.

ALINCO

makes a SPLASH

with great audio and high grade waterproof design!

- **DJ-V17T** 144 MHz HT
- **DJ-V27T** 222 MHz HT
- **DJ-V47T** 440 MHz HT

These powerful HTs make perfect companions for outdoor activities like fishing, camping or snow-sports.

The rugged polycarbonate materials are compatible to IPX7 so these HTs are submersible 1m/3ft. for 30 minutes! And unlike water-resistant radios you may have looked at before, the DJ-V17, DJ-V27 and DJ-V47 all have a large 40mm internal speaker so the audio is clean and crisp, not muffled. You can enjoy 500mW max audio-output, new two-touch repeater access, and over 200 memories. A special battery-drain function helps avoid battery memory-effect. Other features include an ergonomic design, ultra-flexible antenna with SMA connector, 39 CTCSS settings, split function, two-level attenuator and more. Whatever your idea of outdoor fun, Alinco's DJ-V17, DJ-V27 and DJ-V47 are ready to take on the challenges of rain, dirt and dust and come back for more.

Actual Size

- New, two-touch repeater access
- High grade waterproof materials compatible to IPX7 (submersible 1m/3ft. for 30 min.)
- Rugged polycarbonate body resists dirt, dust and moisture
- Large 40mm internal speaker for great audio!
- Highly visible backlit alphanumeric display
- Direct frequency input through illuminated keypad
- 200 Memories, plus one call channel and one repeater access parameter memory
- VFO, Memory and Scan modes
- Ultra-flexible antenna with SMA connector avoids breakage
- 39 CTCSS tone squelch (encode+decode) settings
- Tone burst function (1,000, 1450, 1750 and 2100Hz)
- Battery-drain function avoids memory-effect
- Cloning feature
- Ni-MH standard also uses optional Lithium-ion and NiMH battery packs or AA dry cell case
- SMA antenna port
- 2-level attenuator
- Waterproof single mic/speaker jack

ANALOG & DIGITAL.

It's not just digital. Analog is there, too. Both capabilities in one radio. And what a new radio it is! With infrastructure and a family of D-STAR compatable radios, you're not buying an experiment. That said, digital is the future of amateur radio. And experimentation is a foundation of ham radio. So now you have to ask yourself, "do I pick up the analog only '91A version, which is optionally upgradeable to digital? Or do I take the '91AD, which offers digital right out of the box?" It's your choice. Commitment can be a wonderful thing.

Coming soon to your authorized Icom dealer!
